I. ЦЕЛЬ, РЕЗУЛЬТАТЫ ОСВОЕНИЯ ДИСЦИПЛИНЫ И ПРЕРЕКВИЗИТЫ

The course aims to transfer the fundamental knowledge and to form the basic competencies necessary for the development and the implementation of a business strategy in an emerging market. The students are going to improve their analyzing, decision making, and planning skills as well as the ability to recognize strategic opportunities and threats. The course requires the knowledge of basic economics concepts as the pre-requisite. It is preferable that the students have some practical entrepreneurial or marketing experience, but this is not obligatory. The course has a distinct stress to the practice of strategic management. Although a few fundamental theories are mentioned, the bulk of the ideas are based on simple though efficient applied model that are easy to understand and convenient to use. The multitude of examples and stories from the personal consulting and managerial experience of the author are the hallmark of the course. The author's original drawings make the key concepts well memorable and cozy to deal with.

II. СОДЕРЖАНИЕ УЧЕБНОЙ ДИСЦИПЛИНЫ

Topic 1. Generating business core idea

Dear student! In this module you will learn how to generate a good business idea for an emerging market. You are going to study the key peculiarities of emerging markets and some clues how to fit them. On completing the module you will be able to define your key products and the customer value, to differentiate between the potential client groups, and to apply strategy fundamentals to your business idea. It is truly contributing if you have your own ideas and ambition to start and run a business in an emerging market. Do your best to apply all the ideas of the module to your business idea, discuss it with your friends and colleagues, do all the tasks, and you will have good progress in your learning.

Topic 2. Designing your business model

Dear student! In this module you will learn how to design a coherent and strong business model out of a business idea. You are going to study how to segment your potential market and how to establish marketing, distribution and partnerships in order to meet the demands of your target audience. On completing the module you will be able to calculate the potential market size, to pack attractive value into your products and to position them properly. You will learn how to attract agents and partners, how to establish a sustainable value exchange, and how to plan the necessary basic activities. Do your best to apply all the ideas of the module to your business idea, discuss it with your friends and colleagues, do all the tasks, and you will have good progress in your learning.

Topic 3. Elaborating your value proposition

Dear student! In this module you will learn how to make your offer truly attractive and highly competitive. You are going to study the main factors of competition and the key ideas how to win it. On completing the module you will be able to analyze the competitive environment, to reveal your key competencies, to recognize the market positions with the highest potential, as well as to compose clear commercial offers that make a difference. Do your best to apply all the ideas of the module to your business idea, discuss it with your friends and colleagues, do all the tasks, and you will have good progress in your learning.

Topic 4. Choosing and supporting strategies

Dear student! In this module you will learn how to choose and support the strategies for the different aspects of your business. You are going to study the fundamental strategies for finance, marketing, business structure and human resources. On completing the module you will be able to design a congruent set of strategies that can produce synergy. Follow the given examples. Do your best to apply all the ideas of the module to your business idea, discuss it with your friends and colleagues, do all the tasks, and you will have good progress in your learning.

Topic 5. Business tactics
