

Summer School on Geometry and Topology
University of Hradec Králové (Czech Republic)
August 1—31, 2019

The summer school for bachelor, master and PhD students will include the mini-courses *Minkowski Functionals: Theory, Computation and Applications*; *Dirac operators in geometry*; *Introduction to Supergeometry*; *CR-geometry*; *Differential invariants* (the program will be specified later).

The mini-courses will be given by

Ya. Bazaikin, I. Chrycos, A.Kotov, C. Porter, E. Schneider

The deadline for registration is May 15, 2019.

A limited number of fellowships will be provided. The fellowship should cover the local expenses including the accommodation at the dormitory, and (partially) the travel costs. Bachelor, master and PhD students are encouraged to apply. The application including a motivation letter should be sent to geometry@uhk.cz not later than May 15, 2019. A recommendation letter from a person familiar with the student's mathematical background should be sent separately. The successful applicants will be notified not later than May 30, 2019.
