2019/2020

CELEBRATING 150 YEARS OF BEING OPEN TO THE WORLD

This year is a special one for Ca' Foscari, as it marks the university's 150th anniversary, a milestone that fills us with pride and inspires us to provide even greater opportunities to our students. The university was founded in 1868 as the Scuola Regia Superiore di Commercio (Advanced School for Commerce) by a group of innovative and learned scholars who introduced trade and foreign language studies to Italy, and it continues to be characterised by the same innovative spirit and openness to the world today.

Located in the very heart of the inspiring city of Venice, with its beautiful canals and rich cultural heritage, our university offers a uniquely stimulating and enriching academic environment. You can choose from a wide range of undergraduate and post-graduate degree programmes in either the humanities or the sciences, and we are world-ranked for our offerings in economics, management, foreign languages, history, environmental science and computer science. The education we offer is characterised by interdisciplinarity and innovative teaching methodologies. To further enrich your university experience, you can also broaden your horizons by adding a minor to your undergraduate degree or by taking advantage of special extracurricular learning and training opportunities. Our Active Learning Lab workshops, for instance, refine your soft skills to make you more attractive to employers.

Ca' Foscari also provides you with a host of ways to grow thanks to our emphasis on international education. Not only do we offer many degree programmes entirely taught in English, but we also have a vast network of global partnerships that allow you to earn a joint degree with or carry out an exchange experience at other top-ranked universities in both Europe and around the world. Since your life outside the classroom should be rewarding, too, we have a rich calendar of cultural and social events to keep you stimulated and help you become an active part of our community.

Ca' Foscari and I hope to welcome you to Venice soon!

Michele Bugliesi
Rector

Introduction

Ca' Foscari, 15th century, Venice

Established in 1868 as the first business school in Italy, Ca' Foscari University of Venice is a modern research university with over 23,000 students. It offers a varied array of undergraduate and graduate degrees in both the sciences and the humanities, a significant number of which are taught entirely in English.

Ca' Foscari has a strong international reputation for both teaching and research. The QS World University Rankings include it among the top 150 universities for modern languages, the top 250 for economics and the top 200 for history, and it is one of the top ten universities in Europe, as well as the most successful in Italy, for the number of prestigious Marie Curie Research Fellowships awarded to its researchers by the European Commission.

Heavily invested in being connected to the world, the university has developed a markedly international character. Over 40 languages are taught here and more than 1,500 students participate in exchange programmes scattered around the globe each year. What is more, it offers over 25 double and joint degree programmes and has forged a network of more than 500 partner universities.

The Ca' Foscari experience is a unique one particularly due to the university's location in Venice, for this world-famous city is a place where history animates and catalyses contemporary creativity and innovation.

Why choose Ca' Foscari?

WHY STUDY AT CA' FOSCARI?

- You can choose from an incredibly wide range of bachelor's, master's and doctoral degree programmes, including many that are taught entirely in English and that offer double or joint diplomas with other respected universities.
- Ca' Foscari rewards high-achieving students with numerous incentives, including scholarships and the reduction or waiving of tuition fees.
- You can give your university experience an international edge by taking advantage of our hundreds of study abroad programmes around the globe.
- You can enrich your degree programme with innovative and interdisciplinary workshops dedicated to developing your soft skills and learning to network and share ideas.
- You can complement your classroom learning with real-world internships both in Italy and abroad.
- Ca' Foscari invests heavily in expert teaching and innovative research, particularly with the goal of supporting and promoting young researchers.
- A Ca' Foscari education provides excellent preparation for the working world, as proven by our high graduate employment rate.
- In your free time, you can cultivate your passions and interests by attending cultural events and getting involved in extracurricular activities, including theatre, music, radio, cinema, sports and more.

WHY STUDY IN VENICE?

Most of the university's campuses and buildings are located in Venice, and this makes the Ca' Foscari experience undeniably special. The city stretches across a grouping of 120 small islands in the Venetian lagoon along the Adriatic Sea in northeast Italy. As a result, its urban fabric is characterised not by traffic-congested roads, but by canals, bridges, walkways and lively public squares, so it encourages an environmentally conscious, neighbourhood-based lifestyle.

But most importantly, Venice is an intellectually and culturally stimulating city that offers countless opportunities to learn, grow and enjoy yourself. It has been classified as a UNESCO World Heritage Site thanks to its stunning historical art and architecture, which conjures up the city's extraordinary past as a cultural and commercial crossroads. What is more, every year it plays host to all kinds of internationally renowned exhibitions, events and festivals, offering you endless opportunities for discovering different ideas, traditions and cultures. So studying at Ca' Foscari in Venice means being exposed to top-notch teaching and research in a vibrant, enriching setting.

University profile

PEOPLE

23,000 students, including
1,300 international students

1,300 professors, lecturers
and administrative staff, as well as
100 visiting professors each year

DEGREE PROGRAMMES

17 bachelor's degrees (3 years)

30 master's degrees (2 years)

15 doctoral degrees

30 professional master's degrees (1 year)

OPPORTUNITIES

15,000+ internship agreements in Italy and abroad

700+ student exchange agreements

27 double and joint degrees

2 Summer Schools in partnership with Harvard
University (USA) and Columbia University (USA)

2 International Seminar Programmes in

RESEARCH AT CA' FOSCARI

Ca' Foscari's international reputation for innovative and impactful scholarship is a result of its firm commitment to achieving research excellence, especially through the development of international partnerships and by dedicating resources to fund and promote the work of promising young scholars. The university actively fosters interdisciplinarity in order to encourage faculty and students to explore new frontiers, and it has recently built a state-of-the-art science and technology campus.

RESEARCH FOR GLOBAL CHALLENGES TEAMS

The Global Challenges teams have been formed to tackle the greatest issues facing the modern world today. In order to work toward this goal, they facilitate cross-disciplinary collaboration by bringing together scholars from diverse disciplines in order to spark new ideas and approaches, interweaving their complementary areas of knowledge and experience. The themes investigated by the teams are:

- Creative Arts, Cultural Heritage and the Digital Humanities
- Cross-Cultural and Area Studies
- Economics and Management of Innovation and Entrepreneurship
- Environmental Technologies and Green Economy
- Public Governance, Welfare and Social Innovation
- Science of Complex Economic, Human and Natural Systems

INTERNATIONAL RANKINGS

CONNECTED TO THE WORLD

Ca' Foscari University attracts influential academics and dynamic students from across the globe by providing an inspiring environment in which to learn, teach and carry out research. In order to welcome an ever more varied range of students, the university has a remarkable range of degree programmes taught entirely in English and a vast worldwide network of over 500 university partners. In the firm belief that international study and research experiences foster creativity and innovation through cultural and academic exchange, Ca' Foscari encourages its faculty, students and administrative staff to spend formative periods abroad. To facilitate this, the university has established dozens of double and joint degree programmes with prestigious partner universities in a host of different countries and has over 700 exchange agreements in place, giving those who study and work at Ca' Foscari the chance to learn and grow in virtually every corner of the world. Whether you want to explore Asia or North America, Africa or Europe, South America or Australia, Ca' Foscari paves the way.

School for International Education

The Ca' Foscari School for International Education (SIE) offers international students the opportunity to learn about Italian history, language and culture, and provides prospective students with the possibility of acquiring the missing credits they require in order to qualify for admission into any of Ca' Foscari's degree programmes. The SIE also offers intensive summer programmes in collaboration with such distinguished international partners as Harvard University and Columbia University, thereby providing both local and international students with the chance to broaden and enrich their educational experience.

International College

Ca' Foscari's International College (Collegio Internazionale) is a centre of academic excellence for high-achieving students from both Italy and abroad. As a result, the International College is one of the most vibrant hubs of cultural and academic exchange in north-eastern Italy. Its students enrich their studies at Ca' Foscari by participating in an innovative interdisciplinary programme of courses and activities organized exclusively for the academic community at the International College. Students are provided with accommodation on the Island of San Servolo, an international residential campus located near St. Mark's Square, and some full and partial merit based scholarships are available.

Ca' Foscari for students

GETTING STARTED

WELCOME UNIT

Follows and assists with the online application process and then helps you settle in once you arrive in Venice by providing any information you might need about administrative processes and university services and by organizing the Buddy Programme, which pairs you with current students interested in welcoming you to the city and to the university.

www.unive.it/welcome
welcome@unive.it

FINANCIAL AID OFFICE

Provides you with information about tuition fees as well as opportunities for grants, loans and reductions.

www.unive.it/fees

HOUSING OFFICE

Assists you in finding housing in Venice or on the mainland, whether you are looking for a room in a student residence or a space in a shared apartment.

www.unive.it/housing-en

LEARNING CENTRES

UNIVERSITY LANGUAGE CENTRE

Offers foreign language courses in English, French, Russian, Spanish and German at various levels for any student interested in enrolling. For students wishing to improve their language skills, the centre offers a 75% discount on the cost of all of its language courses.

www.unive.it/cla

SCHOOL FOR INTERNATIONAL EDUCATION

Offers you the opportunity to improve your Italian and learn about Italy's history and culture. It also organizes summer programs in collaboration with prestigious international partners in order to enrich your learning experience at Ca' Foscari. The school's Italian language courses are offered at all skill levels and are open to everyone. The teachers are native-tongue language instructors and exercises are held in rooms with full multimedia access. If you are interested in learning, or improving your knowledge of Italian, the school offers you a 75% discount on the cost of its language courses.

www.unive.it/cfsie-en

CAREER SERVICE

Ca' Foscari's Career Service office is dedicated to preparing you to enter the workforce after graduation. Throughout the year, it organises career guidance workshops with leading professionals to help prepare you to enter the workforce by showing you how to draw a roadmap to professional success, especially by teaching you how to shape your online presence and prepare effective curriculum vitae and cover letters. In addition, the service provides you with useful information about how to tackle job interviews both in Italy and abroad, including the opportunity to participate in workshop simulations.

FIGURES FOR 2017/18

16,000 agreements with national and international companies

40 agreements with international NGOs

800+ job offers posted

2,500 internship offers in Italy

600 internship offers abroad

380 counselling and career guidance sessions offered

30+ seminars and workshops focused on careers, professions and entrepreneurship

INTERNSHIPS IN ITALY AND ABROAD

To give you invaluable on-the-job training and professional work experience, Ca' Foscari's Career Service promotes and organises internships both in Italy and all around the world. Over the years the university has consolidated important relationships with embassies and diplomatic corps as well as with cultural centres, NGOs, Chambers of Commerce and a large number of companies in order to offer you the opportunity to carry out an internship that will help you realise your professional goals. Internships abroad can be set up for students either during their studies or shortly after graduation.

RECRUITMENT DAYS

Ca' Foscari's Career Service organises a series of recruitment days related to all areas of study in collaboration with its network of international and Italian businesses. This year over 90 businesses participated under the following themes:

- Finance and Consulting
- Fashion and Luxury
- Food and Beverage
- Retail and Lifestyle
- Industry and Services

These opportunities can be useful to you as an international student because your study visa allows you to seek employment in Italy for a full year after graduation in order to launch your career.

STUDENT ASSOCIATIONS

Student associations play a crucial role in bringing students together and involving them in university life. Ca' Foscari supports the associations' recreational, training and cultural initiatives and provides funding through special contributions.

associazioni.studenti@unive.it

www.unive.it/associazioni-studenti

ERASMUS STUDENT NETWORK (ESN)

With over 12,000 members from 390 local sections in 36 countries, the Erasmus Student Network supports and promotes international mobility by providing students with opportunities for cultural understanding and self-development under the principle of students helping students.

venezia_mam@esn.it

www.esnvenezia.it

AIESEC VENEZIA

AIESEC is an international network that gives young people the opportunity to discover and develop their leadership potential with the aim of having a positive impact on society. To achieve this, AIESEC members participate in various activities such as conferences and association events and carry out international internships.

www.facebook.com/aiesecvenezia

SPORTS AND CULTURAL ACTIVITIES

UNIVERSITY SPORTS CENTRE (CUS)

The University Sports Centre (CUS) offers students the opportunity to participate in a wide variety of sports thanks to its facilities in the city centre and on the mainland.

venescus@unive.it
www.cusvenezia.it

SCIENCE GALLERY VENICE

Part of the acclaimed Global Science Gallery Network, the new Science Gallery Venice is set to open its doors shortly and will be an integral part of Ca' Foscari. Its interactive exhibition space will offer a stimulating environment for the discovery of science, particularly for high school and university students.

RADIOCAFOSCARI

Created by students for students, Ca' Foscari's online radio station is one of the university's newest communication tools. Students can take part in its organisation and operation on the basis of their individual skills and experience.

radiocafoscari@unive.it
www.radiocafoscari.it

UNIVERSITY CHOIR AND ORCHESTRA

For more than twenty-five years Ca' Foscari's choir and orchestra have been offering students the opportunity to begin exploring or continue to foster their love of music. The groups' repertoires change from year to year and range from mediaeval to contemporary pieces.

corouniv@unive.it

SHYLOCK

UNIVERSITY THEATRE CENTRE (CUT)

Shylock is a cultural association aimed at promoting technical-artistic innovation in the field of theatre. It organises training and experimental workshops, hosts visiting productions and shows, and carries out research and production projects. The association's activities involve a wide range of disciplines and professional figures.

info@cut.it

LIFE IN VENICE

Every day the city offers its residents – a large number of whom are students – the chance to feed their thirst for knowledge through its numerous and varied artistic and cultural exhibitions, initiatives and events. Studying in Venice means living and breathing art, architecture and culture. It also means living an environmentally conscious lifestyle. One of the most eagerly awaited moments in a Venetian student's day is the so-called *aperitivo in campo*, or outdoor aperitif: from the afternoon through to late evening, areas of the city such as Campo Santa Margherita and the Erbaria at Rialto turn into venues where people gather to chat and listen to music while they drink *spritz* and eat *cicchetti* – the traditional local aperitif and snacks that Venice is famous for.

CA' FOSCARI CULTURAL EVENTS

- Art Night Venezia, an evening of open museums and galleries dedicated to art lovers
- The International Ca' Foscari Short Film Festival, the first festival in Europe created and organised by a university
- Ca' Foscari exhibition openings
- Incroci di Civiltà – Cultural Crossroads, Venice's international literary festival
- Lectures by internationally celebrated scholars and cultural figures
- Venetionight, the European Researchers' Night
- International Universities Challenge during the Historical Regatta
- National and international Dragon Boat Races

OTHER NOT-TO-BE-MISSED EVENTS ON THE VENETIAN CALENDAR

- Carnival, usually in February: The traditional celebration before the beginning of Lent for which all of Venice's public squares are transformed into outdoor clubs hosting special events, parties and live music.
- The Redentore Festival (Festa del Redentore): A popular local festival celebrating the city's recovery from the plague in the sixteenth century for which a spectacular fireworks display is organized. Venetians watch the show from the *fondamente* and their boats, eating and drinking.
- Venice Biennale: The world's premiere international contemporary art and architecture exhibition that runs from May to November.
- Venice Film Festival: A world-renowned festival that takes place in September on the Lido, showcasing some of the year's most noteworthy films and attracting some of the best contemporary movie directors and actors.

For further information about Venice's cultural events, visit the website en.turismovenezia.it.

NETWORKS

Learn about and keep up with what's happening at Ca' Foscari! Find out about all of the initiatives and events organised by the university in the online magazine *cafoscarinews* at www.unive.it/cafoscarinews.

For further information about Italy's higher education system, please visit www.study-in-italy.it or www.university.it.

EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

The European Credit Transfer and Accumulation System (ECTS) is a system that facilitates the transfer of university credits between higher education institutions in Europe. It is based on the clarity and transparency of students' study plans and on the assignment of appropriate credits for the studies they complete. The objective of this system is to guarantee the acknowledgement of the academic value of the courses and exams done by exchange students during their period of study abroad. These rules are based on precise agreements regulated by mechanisms common to all participating institutions, and students

are made aware of these before beginning their study exchange. Ca' Foscari has established that 1 CFU, or Ca' Foscari credit (*credito formativo universitario*) is equivalent to 1 ECTS credit.

For more information on grade conversion, please visit www.unive.it/ects-english.

University preparation year

photo: Tony Hisgett

Ca' Foscari University provides the opportunity to carry out a preparatory year before beginning a bachelor's degree. This year of study, which is taught in either English or Italian, is right for you if:

- You will have fewer than 12 years of schooling upon completing high school (12 years are required in order to enrol in a bachelor's degree in Italy)
- You studied in the American school system and will not have the three Advanced Placement exams required to enrol in university in Italy
- You need to improve your foreign language skills before beginning your university studies abroad (Ca' Foscari's principal languages of instruction are Italian and English)

Ca' Foscari's university preparatory year is open to anyone, regardless of where a student intends to enrol in university. The programme is particularly popular with students intending to enrol in one of the three other institutions that, together with Ca' Foscari, form the Study in Venice consortium: IUAV University (architecture and design), the Conservatorio Benedetto Marcello (music) and the Accademia di Belle Arti (fine arts and design).

For more information, contact the School for International Education by writing to cfsie@unive.it.

BRIDGE YEAR

Language of instruction: 

The Ca' Foscari Bridge Year is designed for students who wish to prepare for enrolment in an Italian-taught bachelor's degree programme. It provides you with an adequate mastery of Italian and a basic knowledge of the main disciplines of their future study area. In addition, if your chosen degree programme requires them to take an admission test, the Bridge Year prepares you to do so. The study programme typically consists of two blocks of classes, although you can add an additional block of English-taught courses if you wish:

Block 1: Italian language course 10 months (October–August)

Entry language level: Any

Target language level: Minimum B2

Extra feature: CILS exam (Italian language certification) included

Block 2: Package of 4 introductory Italian-taught courses selected from a variety of subject areas 7 months (February–August)

Four courses totalling 120 classroom hours

Study areas from which to choose courses:

Economics, Sciences, Humanities, Architecture, Design, Fashion, Urban Planning

Cost: € 5,000

FOUNDATION YEAR

Language of instruction: 

The Ca' Foscari Foundation Year is for students who wish to prepare for enrolment in an English-taught bachelor's degree programme. It provides you with an adequate mastery of English and a basic knowledge of the main disciplines of your future study area. In addition, if your chosen degree programme requires you to take an admission test, the Foundation Year prepares you to do so.

The programme involves a total of 350 classroom hours, of which 230 are provided by courses focusing on English, Italian and modern European history. The remaining 120 classroom hours are dedicated to a focused study track. You have two to choose from:

- Economics and Science Track (including courses in such fields as economics, mathematics, law and critical thinking)
- Arts and Humanities Track (including courses in such fields as art history, philosophy, Italian culture and literature)

Classes run from October through June, and your learning is assessed throughout the year on the basis of class participation, essay writing, presentations and tests.

Cost: € 5,000

Bachelor's degree programmes

- International Trade and Tourism 
- Language, Culture and Society of Asia and Mediterranean Africa 
- Philosophy, International and Economic Studies 

PRESERVATION AND MANAGEMENT OF CULTURAL HERITAGE

- Conservation of Cultural Heritage and Performing Arts Management 
- Technologies for the Conservation and the Restoration 

Interdisciplinary programmes appear in more than one study area.

ADMISSION TO BACHELOR'S DEGREE PROGRAMMES

ENTRANCE QUALIFICATIONS

In order to enrol in any undergraduate degree programme, you must have an accepted University Entrance Qualification (UEQ). If you have completed or are completing your high school studies outside of Italy, your UEQ must be the culmination of at least 12 years of compulsory education and has to be pre-evaluated by the university to confirm that it grants admission to an undergraduate programme in Italy.

ADMISSION

Some undergraduate programmes have limited enrolment (*accesso programmato*) whereas others do not (*accesso libero*). If you apply for a programme without an admission cap, you can enrol directly, and then, if necessary, satisfy any Additional Learning Requirements. If you apply for a programme with limited enrolment, you must be ranked through a pre-enrolment selection process. Depending on your citizenship and country of residence, this involves taking a written or oral admission test:

| | Test type for limited enrolment programmes |
|--|---|
| EU citizen | Written test in Italy |
| Non-EU citizen residing in Italy | Written test in Italy |
| Non-EU citizen residing in the EU | Written test in Italy or oral test via Skype* |
| Non-EU citizen residing outside the EU | Oral test via Skype |

* Depending on visa type

The test results yield a ranked list of eligible applicants. These students are then notified of their acceptance and permitted to enrol. To learn more about which test is right for you, write to welcome@unive.it.

ADDITIONAL LEARNING REQUIREMENTS

You must be properly prepared in order to be successful in your university studies, so it is important to ensure that you have the necessary academic prerequisites. If you do not satisfy your programme's entry requirements, you will have to fulfil Additional Learning Requirements (*obblighi formativi aggiuntivi*, or OFA). When necessary, you could be required to take remedial courses organised by the university in order to demonstrate that you have attained the level of knowledge required by your programme. In some cases, you must take and pass these courses within a certain time-frame in order to be able to take the exams associated with your programme of study. OFAs have no impact on the number of credits that you are required to obtain during your studies or on your grade point average – they are pass/fail only.

LANGUAGE REQUIREMENTS

All undergraduate programmes require you to have a certified minimum B2-level of knowledge (as defined by the Common European Framework of Reference for Languages, or CEFR) of your programme's language of instruction if you are not a native speaker, and Italian-taught programmes also require a certified minimum B1-level knowledge of English. To prove your level of Italian,

non-EU students residing outside Italy must either obtain one of the Italian-language certificates recognised by the Italian Ministry of Education, Universities and Research (MIUR) that indicates a B2 level or demonstrate this knowledge by taking an Italian language test offered by the university before the beginning of the academic year. You can find more information about language requirements on our website at www.unive.it.

ENRICH YOUR DEGREE

MINORS

A minor is a course of study comprising three modules of 6 ECTS credits each, for a total of 18 ECTS credits. It allows you to enrich your training in the sciences or the humanities by broadening your horizons to areas of knowledge that lie beyond your principal study area. You can choose any of the following minors – which are currently taught in Italian only – as long as there is no overlap in content with your chosen degree programme:

- The Americas: Rhetoric, Politics and Myths
- Artistic Management
- Banks and Saving, Work and Revenue
- Computer and Data Science
- Eastern Europe: Contacts Beyond the Boundaries
- Energy, Climate Change and Environmental Risks
- Gender, Genders: Equality and Parity in Society and Work
- Instruments of Thought: Elements of Epistemology and of Philosophy of Language for the Economic and Scientific Disciplines
- Media, Culture and Visual Communication in Asia and Mediterranean Africa
- Methods of Economic and Financial Education
- Modern Science: Cultural Problems and Social Impact
- Senses, Science and Cultural Expression
- Venice: History of a City of Sea and Stone
- Women: Comparing Histories and Cultures

BUSINESS ADMINISTRATION

Language of instruction:  or 

Do you want to work in an industrial, commercial or financial institution in Italy or abroad? This programme prepares you with the necessary skills for the marketing sector; administration and business management; organisation and staff management; finance and financial intermediation sectors. Thanks to agreements with the Ordine dei Commercialisti ed Esperti contabili di Venezia (Order of Chartered Accountants and Accounting Experts of Venice) and the Ordine dei Consulenti del lavoro di Vicenza (Order of Labour Consultants of Vicenza), you have the option to complete a professional internship during the final year of your degree. Are you interested in pursuing a career abroad or in an international context? You can choose the Business Administration and Management curriculum, which is entirely taught in English. Additionally, those who earn a bachelor's degree in Business Administration and Management (Economia Aziendale) can apply for the double degree with École Supérieure de Commerce de Paris-Europe (ESCP-Europe) if you enrol in the corresponding master's courses in the Management Department.

CURRICULA

- Business Administration 
- Business Administration and Management 

CAREER OPPORTUNITIES

Graduates can find employment as managers and consultants in industrial, business, banking, finance and insurance companies and enterprises, both in Italy and abroad. Possible career opportunities include:

- Management and supervision in the private sector

- Human resources
- Workplace organisation
- Accountancy
- Finance
- Sales and distribution
- Marketing

ENTRY REQUIREMENTS AND ADMISSION

- EU citizens interested in the Business Administration curriculum must take an Italian-language written admission test in Italy evaluating their knowledge of logic and mathematics; EU citizens interested in the Business Administration and Management curriculum must take an English-language written admission test in Italy testing their knowledge of mathematics.
- Non-EU citizens interested in either curriculum must take either an oral admission test via or one of the written tests described in the previous point Skype in the language of instruction of their chosen curriculum; for more information, write to welcome@unive.it.
- For the Business Administration curriculum, a **certified B2-level knowledge of Italian and a certified B1-level knowledge of English** are required; for the Business Administration and Management curriculum, a **certified B2-level knowledge of English** is required.

Department of Management
Cannaregio 873, Venice
campus.economico@unive.it

www.unive.it/degree/et11

CONSERVATION OF CULTURAL HERITAGE AND PERFORMING ARTS MANAGEMENT

Language of instruction: 

Do you want to work with cultural heritage as a conservation specialist or an artistic heritage manager? This programme is for you! You can specialise in the history of art, archaeology, performing arts and media, or management of arts and cultural activities. Each curriculum offers a historic and artistic approach, since working within the field of cultural heritage requires an in-depth knowledge of a specific historical context. Depending on the curriculum you choose, you also acquire methodological skills in management (legislation), conservation (restauration, maintenance, prevention), documentation (cataloguing, graphic reproduction), promotion (project design, finding resources and funding, financial planning) and cultural heritage.

CURRICULA

- Archaeology 
- Art History 
- Economics and Management of Arts and Cultural Activities 
- Performing Arts and Media Studies 

CAREER OPPORTUNITIES

Graduates can find employment in local government and with agencies involved in the protection, conservation and management of archaeological and historical-artistic heritage or the promotion of artistic events, the performing arts and the culture industry. Possible career opportunities include:

- Event organiser
- Television, film and theatre producer
- Museum professional
- Art valuation

ENTRY REQUIREMENTS AND ADMISSION

- A **certified B2-level knowledge of Italian and a certified B1-level knowledge of English** are required.

DIGITAL MANAGEMENT

Language of instruction: 

Created in partnership with H-Farm, this innovative programme is unique in Italy and aims to train a selected group of motivated specialists in digital transformation to launch start-ups or help a private or public business go digital. Entirely taught in English, this programme offers you a high-level and engaging learning experience, with an emphasis on interdisciplinary training, problem solving and team based teaching. It features a strong programme of extra-curricular activities, including soft skills, and close contact with mentors from start-ups and the digital world starting from your first year. Project work in companies plays a fundamental role in the curriculum and you can achieve personal development in one of the companies within the Ca' Foscari and H-Farm network, giving you the opportunity to see the most innovative business ideas supported and financed. The programme is taught on the H-Campus at Ca' Tron, Roncade (near Treviso).

CAREER OPPORTUNITIES

Graduates possess the training to become business executives capable of identifying, interpreting and managing new organizational processes and business methods. Possible career opportunities include:

- Digital project manager
- Digital manager
- Business developer
- Growth hacker

ENTRY REQUIREMENTS AND ADMISSION

- EU citizens must take a written admission test in Italy that evaluates their knowledge of logic and mathematics.

- Non-EU citizens must take either an oral admission test via Skype or a written admission test in Italy that evaluates their knowledge of logic and mathematics; for more information, write to welcome@unive.it.
- A **certified B2-level knowledge of English** is required.

CONTACT INFORMATION:

Department of Management
H-Campus
Via Sile 41, Roncade
campus.economico@unive.it

www.unive.it/degree/et7

ECONOMICS AND BUSINESS

Language of instruction:  or 

Do you want to specialise in economics to work in Italy or abroad? This flexible and in-depth programme provides you with the necessary skills to critically analyse economic phenomena and tackle the world of private businesses or public organisations. The programme includes an internship for personal development. You can choose whether to study in Italian or in English, which can prepare you for a career in an international setting or for further study abroad.

CURRICULA

- Economics and Business 
- Economics, Markets and Finance 

CONTACT INFORMATION:

Department of Economics
San Giobbe, Cannaregio 873, Venice
campus.economico@unive.it

www.unive.it/degree/et4

CAREER OPPORTUNITIES

Depending on the curriculum they complete, graduates can find employment as consultants in the field of economics or take on a professional role in the public and private sectors of tourism. Career opportunities can be found in the following fields, among others:

- Accounting
- Financial and administrative management
- Banking
- Advertising

ENTRY REQUIREMENTS AND ADMISSION

- EU citizens interested in the Economics and Business curriculum must take an Italian-language written admission test in Italy that evaluates their knowledge of logic and mathematics; EU citizens interested in the Economics, Markets and Finance curriculum must take an English-language written admission test in Italy that evaluates their knowledge of logic and mathematics.
- Non-EU citizens must take either an oral admission test via Skype or one of the written admission tests in Italy that evaluates their knowledge of logic and mathematics; for more information, write to welcome@unive.it.
- For the Economics and Business curriculum, a **certified B2-level knowledge of Italian and a certified B1-level knowledge of English** are required; for the Economics, Markets and Finance curriculum, a **certified B2-level knowledge of English** is required.

ENVIRONMENTAL SCIENCES

Language of instruction: 

The Environmental Sciences programme prepares you with multidisciplinary skills to create prevention plans and develop diagnoses, and provide solutions for environmental problems. It offers core courses in mathematics, physics, chemistry, biology, ecology and geology, as well as specific courses in environmental sciences. You gain knowledge in environmental economics, ecology, environmental chemistry, law and environmental planning and learn the bases of how to evaluate environmental impact. You can test your knowledge in workshops, labs and in the field, including an entire week with professors, researchers and tutors during the second year, a unique opportunity in Italy. Thanks to agreements with universities around the world, you have the opportunity to study abroad.

CAREER OPPORTUNITIES

Graduates may draw upon their multidisciplinary skills to work in the diagnosis and prevention of environmental issues, as well as the development of strategies for managing them, at both public and private agencies and organizations. They can pursue career opportunities in the following fields:

- Renewable energy and energy conservation
- Environmental control
- Waste collection and management
- Agriculture and forestry

ENTRY REQUIREMENTS AND ADMISSION

- A certified B2-level knowledge of English and a certified B1-level knowledge of English are required.

CONTACT INFORMATION:

Department of Environmental Sciences,
Informatics and Statistics
Scientific Campus
Via Torino 155, Venezia Mestre
campus.scientifico@unive.it

www.unive.it/degree/ct5

HISTORY

Language of instruction: 

This programme provides you with the foundation for carrying out historical, anthropological, social and documentary research since antiquity. You can choose between four curricula. The course of study introduces you to the ancient Near-East, Greek, Roman, medieval, modern and contemporary history as well as to aspects of anthropology and geography. The anthropological, archival and historical approaches employed will allow you to explore other, more specific fields as well. Thanks to the skills you gain, you will be able to launch a career in a variety of fields, such as cultural heritage management, communication, cultural event organisation and publishing.

CURRICULA

- Anthropological History 
- Archive and Library Studies 
- History – The Mediterranean World from Antiquity to the Middle Ages 
- History – From European Hegemony to Globalization 

CAREER OPPORTUNITIES

Graduates can find employment at public and private institutions operating in fields connected to the study or preservation of history. Possible career opportunities include:

- Archives and museums
- Arts administration
- Historian

ENTRY REQUIREMENTS AND ADMISSION

- A certified B2-level knowledge of English and a certified B1-level knowledge of English are required.

HUMANITIES

Language of instruction: 

This course offers basic training in a historic-methodological style, concentrating on linguistic history and the figurative and literary culture of Europe and the ancient Mediterranean world, from the medieval period to the present day. You can choose between two curricula: Antiquity; or Science of the Literary Text and Communication. You also have a unique opportunity to apply for a double degree in Italian Studies and the History of Art with the University College London, attending classes in both Venice and London. The programme focuses on direct knowledge of texts and original documents and on a critical approach of how knowledge, ideas and information have been passed on through the centuries. Thanks to the skills you gain, you will be able to establish yourself in a range of professional fields: from the dissemination of information to cultural heritage conservation and management, and from archival cataloguing to the critical analysis of information.

CURRICULA

- Antiquity 
- Science of the Literary Text and Communication 

CAREER OPPORTUNITIES

Graduates will acquire the basic knowledge necessary for educational activities at middle schools and high schools. Furthermore, they will be able to assume professional roles at public and private institutions operating in a variety of cultural fields. Career opportunities can be found in the following fields, among others:

- Journalism
- Cultural manager
- Cultural consulting

- Administration
- Archives and libraries

ENTRY REQUIREMENTS AND ADMISSION

- A **certified B2-level knowledge of English** and a **certified B1-level knowledge of English** are required.

DOUBLE/JOINT DEGREE

Double degree with University College London (UK): After completing their studies, students receive a *Laurea in Lettere* from Ca' Foscari and a Bachelor's Degree in Italian Studies/Italian and the History of Art from UCL. Ca' Foscari issues a yearly call for applications for this double degree.

CONTACT INFORMATION:

Department of Humanities
Palazzo Malcanton Marcorà
Dorsoduro 3484/D, Venice
campus.umanistico@unive.it

www.unive.it/degree/ft3

INFORMATICS

Language of instruction: 

This bachelor's degree programme offers you a thorough theoretical and experimental knowledge in computer science and has been recognised as outstanding by several Italian professional associations. It provides you with core conceptual competencies in informatics, as well as analytical, planning and development skills, methodological and technological know-how and other professional skills that are used to communicate information, ideas, problems and solutions. If you choose the European Computer Science curriculum, you have the opportunity to spend a year abroad in one of Ca' Foscari's partner universities and obtain your Italian degree as well as a degree in the country of your choice. If you choose the Data Science curriculum, you gain specific skills in data collection, which are at the centre of a new market. If you choose the more traditional Technologies and Information Science curriculum, you explore professional informatics fields such as web technologies and design or informatics system administration. All the curricula include workshop activities and experimentation as well as the use of the English language, including technical language specific to ICT.

CURRICULA

- Data Science 
- European Computer Science (ECS) 
- Technologies and Information Science 

CAREER OPPORTUNITIES

Graduates can pursue careers in the software production and data analysis sectors with manufacturing companies in the fields of information systems and processor networks, or with organizations, local authorities and professional laboratories that work with complex information

processing systems and methods. Possible career opportunities include:

- Computer programmer
- Applications expert
- Web technician
- Database technician
- Network and systems technician

ENTRY REQUIREMENTS AND ADMISSION

- A **certified B2-level knowledge of English** and a **certified B1-level knowledge of English** are required.

DOUBLE/JOINT DEGREES

Depending on the chosen programme of study, double degrees exist with: University of Hamburg (Germany), Universidad de Burgos (Spain), Instituto Politecnico de Coimbra (Portugal), Université Paul Verlaine–Metz/Nancy (France), Université François Rabelais–Tours/Blois (France), Timisoara (Romania), Turun Yliopisto–Turku (Finland). At the end of their studies students receive a double degree in European Computer Science (ECS). Ca' Foscari issues a yearly call for applications for each of these double degrees.

INTERNATIONAL TRADE AND TOURISM

Language of instruction: 

This programme provides you with a complete and in-depth understanding of economic issues through a range of analytical tools in the economic, business, legal and quantitative fields, particularly focusing on their international importance. The two curricula are: Foreign Trade and Tourism Economics. In the Foreign Trade Curriculum, you are provided with useful and necessary skills to allow you to manage the complexity of import-export relations in business, value investments in foreign markets and organise production processes on an international scale. In the Tourism Economics curriculum, you learn to correctly interpret trends in global tourism markets, understand the complexity and the transversality of the tourism industry and know how to set up a development plan correctly for an organisation that operates in the tourism sector (private or public) or in a tourist destination. The course includes an internship – preferably abroad – for personal development at a business or institution.

CURRICULA

- Foreign Trade 
- Tourism Economics 

CAREER OPPORTUNITIES

Graduates are prepared for careers as export business relations specialists, executive assistants or foreign-trade area managers. They are also ready for employment as executive assistants or assistants to CEOs, export managers and purchasing managers. Career opportunities can be found in the following fields:

- Financial and administrative management
- International trade research consultant
- Process organisation and management
- Commercial organisation

ENTRY REQUIREMENTS AND ADMISSION

- EU citizens must take a written admission test in Italy evaluating their knowledge of logic and mathematics.
- Non-EU citizens must take an online exam (oral and/or written) to certify their preparedness for the programme.
- A certified **B2-level knowledge of Italian and a certified B1-level knowledge of English** are required.

LANGUAGE, CULTURE AND SOCIETY OF ASIA AND MEDITERRANEAN AFRICA

Language of instruction: 

Are you interested in learning more about Asia or the Near and Middle East? With this programme, you can choose the country and language that interest you the most between: Arabic, Armenian, Chinese, Korean, Hebrew, Japanese, Hindi, Persian, and Turkish. This bachelor's degree provides you with written and spoken skills in one or two languages (depending on the curriculum you choose) as well as an advanced knowledge of English or French. The programme introduces you to internationally recognised scholars, provides hands-on exercises with native speaking experts and offers the possibility to study or do an internship abroad. You will explore the cultural and religious heritage of your chosen region as well as its history, literature, economic dynamics, legal and social systems. With the skills you gain, you will be able to continue your education with a master's degree or apply for international and multicultural positions in Europe and abroad in the diverse fields of translation, interpreting, publishing, tourism, journalism, training and linguistic education, and in roles such as consulting in social and educational services, welcome services for non-European citizens, organisation and promotion of cultural and artistic events, the export of "Made in Italy" goods and import of products from Asia and the Near and Middle East.

CURRICULA

- China 
- South Korea 
- Japan 
- Indian Subcontinent 
- Near and Middle East 

LANGUAGES

China Curriculum / Korea Curriculum / Japan Curriculum

- First language (three years): Chinese, Korean or Japanese
- Second language (one year): Arabic, Armenian, Chinese, Hebrew, Hindi, Georgian, Japanese, Korean, Modern Greek, Persian, Sanskrit, Thai, Tibetan, Turkish or Vietnamese

Indian Subcontinent Curriculum

- First language (three years): Hindi
- Second language (two years): Arabic, Chinese or Persian

Near and Middle East Curriculum

- Two languages for three years: Arabic, Armenian, Hebrew, Persian, or Turkish
- Other possible languages: Georgian, Modern Greek, Tibetan or Vietnamese

CAREER OPPORTUNITIES

Graduates can find employment in the field of intercultural communication in such contexts as cultural organisations and museums, national and EU public institutions and international organisations and businesses. Possible career opportunities include:

- Foreign language correspondent and similar professions
- International business liaison
- International public relations
- Commercial organisation
- Commercial agent
- Cultural consultant
- Translator
- Interpreter

LANGUAGES, CIVILISATION AND THE SCIENCE OF LANGUAGE

Language of instruction: 

ENTRY REQUIREMENTS AND ADMISSION

- EU citizens must take a written admission test in Italy that evaluates their knowledge of Italian, English and logic, as well as their familiarity with themes relevant to their chosen curriculum.
- Non-EU citizens must take either an oral admission test via Skype or a written admission test in Italy that evaluates their knowledge of Italian, English and logic, as well as their familiarity with themes relevant to their chosen curriculum; for more information, write to welcomer@unive.it.
- A **certified B2-level knowledge of Italian and a certified B1-level knowledge of English** are required.

DOUBLE/JOINT DEGREES

- **Double degree with Capital Normal University (China):** after completing their studies, students receive a *Laurea in Lingue, culture e società dell'Asia e dell'Africa mediterranea* from Ca' Foscari and a Bachelor's Degree in Chinese from CNU.
- **Double degree with Kyungpook National University (South Korea):** after completing their studies, students receive a *Laurea in Lingue, culture e società dell'Asia e dell'Africa Mediterranea* from Ca' Foscari and a Bachelor's Degree in Korean Language Education from KNU.

Ca' Foscari issues a special call for applications once a year for each of these double degree programmes.

Are you interested in languages, literature, foreign cultures and civilisations? Would you like to learn more about language science and how linguistic and cultural identities are constructed? This bachelor's degree programme gives you the opportunity to strengthen your knowledge of at least two languages and possibly a third by choosing among more than 20 languages in a programme that is internationally recognised as outstanding. Depending on the curriculum you choose, you can specialise in literature and culture, language science, or international politics. You can further develop and practice your skills during study abroad periods in one of the many European and non-European universities that Ca' Foscari has an agreement with or during internships at one of our partner institutions.

CURRICULA

- International Politics 
- Linguistics, Philology and Language Teaching Research 
- Literatures and Culture 

LANGUAGES

- Three-year courses: Albanian, American English, Catalan, Czech, French, German, English, Italian Sign Language (LIS), Latin American Spanish, Modern Greek, Polish, Portuguese and Brazilian Portuguese, Romanian, Russian, Serbo-Croatian, Spanish, Swedish.
- Single module courses: Basque, Bulgarian, tactile sign language.

CAREER OPPORTUNITIES

Graduates may operate in various sectors of the national and European employment market in the

areas of management and the enhancement of cultural heritage and educational activities. The organization of the distinct curricula provides a professional preparation that facilitates access to multicultural workplaces. Possible career opportunities include:

- Translator
- Foreign language correspondent
- Public relations expert
- Tourism-related professions
- Event organiser
- Cultural consultant

ENTRY REQUIREMENTS AND ADMISSION

- A **certified B2-level knowledge of Italian and a certified B1-level knowledge of English** are required for all curricula except for those focusing on the English language, for which a B2-level knowledge is required. To enrol in the German language course, a B1 level in German is also required; no remedial classes are provided for beginners. The department is responsible for determining the maximum enrolment number for each course.

LINGUISTIC AND CULTURAL MEDIATION

Language of instruction: 

Would you like to work in linguistic and cultural mediation, in international communications or tourism? This bachelor's degree programme has a professional approach and provides you with an interdisciplinary education that includes specific language courses for English and Spanish, international law and business economics, and involves coursework addressing negotiation, translation and linguistics as well as the cultural and institutional characteristics of English- and Spanish-speaking regions. Thanks to the skills and knowledge you gain through the programme, you can apply to be a linguistic consultant, translator or interpreter, and will be capable of assisting with international negotiations or contributing to the international development of an institution.

CAREER OPPORTUNITIES

Graduates are prepared for a varied range of employment opportunities:

- Interpreter
- Translator
- Tour guide
- Cultural/linguistic mediator
- Foreign language correspondent
- International advertising agent
- Commercial liaison
- Communication expert
- Event organiser
- Cultural consultant

ENTRY REQUIREMENTS AND ADMISSION

- EU citizens must take a written admission test in Italy that evaluates their linguistic aptitude and cultural knowledge in both Italian and English, as well as their general knowledge of

the history and geography of Spanish-speaking countries.

- Non-EU citizens must take either an oral admission test via Skype or a written admission test in Italy that evaluates their linguistic aptitude and cultural knowledge in both Italian and English, as well as their general knowledge of the history and geography of Spanish-speaking countries; for more information, write to welcome@unive.it.
- A **certified B2-level knowledge of Italian** and a **certified B1-level knowledge of English** are required.

PHILOSOPHY

Language of instruction: 

Offering three different curricula to choose from, this bachelor's degree programme provides you with a critical understanding of the main philosophical themes and issues in their historical development, theoretical extent, as well as in connection with other disciplines and research fields (psychology, human sciences, education studies, artistic disciplines). It is the only university programme in Italy that reflects on philosophical matters that are fundamental to our contemporary world and its increasingly globalised society. Two of the programme's important components are its integration of the human sciences (psychology, anthropology) and its coursework in the education sciences. Thanks to the skills you develop during this master's degree, you will be able to pursue a professional career in a variety of fields, including print and digital publishing, libraries and archives, or continue on to graduate work.

CURRICULA

- Philosophy 
- Philosophy and History 
- Philosophy and Human Sciences 

CAREER OPPORTUNITIES

Graduates are equipped to undertake advanced studies in the fields of philosophical and social analysis and educational counselling. They can also move on to a first-level professional master's programme dealing with philosophy and philosophical counselling as well as educational training and the science of cognition. Career opportunities can be found in the following fields, among others:

- Library and archive services
- Human resources
- Communication
- Advertising

ENTRY REQUIREMENTS AND ADMISSION

- A **certified B2-level knowledge of Italian** and a **certified B1-level knowledge of English** are required.

PHILOSOPHY, INTERNATIONAL AND ECONOMIC STUDIES

Language of instruction: 

This bachelor's degree programme is entirely offered in English and offers a flexible, international and multidisciplinary education, enabling you to analyse and interpret social, political and economic phenomena through logical-philosophical foundations, familiarity with international realities, the cultures of various countries and the instruments of economic sciences for the analysis of a macroeconomic context, market behaviours and economic factors. You will develop a critical understanding of philosophical, political and economic texts as well as skills to communicate information on globalisation, ideas and possible answers to current issues. Thanks to the skills you gain, you will be able to pursue a professional career in diverse fields such as becoming a consultant for international economics, or working in international relations, with an emphasis on economic and political phenomena, in international organisations and private companies.

CAREER OPPORTUNITIES

Graduates may find employment as consultants in the international economics field or practice a profession in international relations with a specialised knowledge of economic-political phenomena and national institutions, working at either the ministerial or regional level, at chambers of commerce, at international institutions (OECD, World Bank, UN, etc.) or at private companies (for example, as an export manager or manager of international relations). Possible career opportunities include:

- Economic expert

- International relations expert
- Public relations consultancy
- International marketing
- Diplomatic core
- Public governance
- Cultural mediator

ENTRY REQUIREMENTS AND ADMISSION

- EU candidates must take a written admission test in Italy that evaluates their knowledge of logic and general culture.
- Non-EU citizens must take either an oral admission test via Skype or a written admission test in Italy that evaluates their knowledge of logic and general culture; for more information, write to welcom@unive.it.
- A **certified B2-level knowledge of English** is required.

SCIENCES OF SOCIETY AND SOCIAL SERVICE

Language of instruction: 

This bachelor's degree programme aims to understand social phenomena and social initiative processes with an interdisciplinary approach. Over the course of three years, you gain legal skills (public, private and family law), knowledge of the historical evolution and sociological dynamics of society (economic structure, market economy, labour market, inequalities, transformations of the family structure and relations, migration, democracy, welfare state), and psychological knowledge (individual and collective processes, communication in aid relationships, psychological development and its socio-cultural context, psycho-social unrest, social and occupational psychology). This programme includes an internship with social workers as supervisors. Upon graduation, you will have the qualifications to plan and manage social initiatives and operate

within a network, discovering the different roles of social workers.

CAREER OPPORTUNITIES

Graduates are trained to perform social work and intervention activities, operate on the territory as part of a network and comply with roles and duties as defined in the professional profile of social work. They may also sit professional licensing examinations that lead to the qualification of social worker. Career opportunities can be found in the following fields:

- Social work
- Rehabilitation and social integration
- Welfare administration
- Education and researcher
- Public administration
- NGOs

ENTRY REQUIREMENTS AND ADMISSION

- EU citizens must take a written admission test in Italy that evaluates their ability to understand, interpret and comment on texts dealing with contemporary social phenomena and issues.
- Non-EU citizens must take either an oral admission test via Skype or a written admission test in Italy that evaluates their ability to understand, interpret and comment on texts dealing with contemporary social phenomena and issues; for more information, write to welcom@unive.it.
- A **certified B2-level knowledge of Italian** and a **certified B1-level knowledge of English** are required.

SUSTAINABLE CHEMISTRY AND TECHNOLOGY

Language of instruction: 

If you are interested in experimental sciences, and specifically chemistry and its many applications, this programme is the one for you. You learn the basics of the field and how to articulate the production of new materials and sustainability. The programme provides you with core competencies in mathematics and physics and strong theoretical and experimental bases in chemistry. You can personalise your study plan according to your own interests. Workshops will bring concepts to life and teach you how to proceed throughout the main experimental operations. Upon graduation, you will have specific know-how in the fields of production, transformation, analysis and marketing of traditional and innovative materials with an emphasis on sustainability, environmental protection and safety. You will be able to enter the work force and, in particular, the chemical, pharmaceutical, food, biotechnology, energy and new materials' industries, or pursue further education with a master's degree.

CAREER OPPORTUNITIES

This programme trains professionals capable of acting as an interface between sustainable production and sustainable development. Their knowledge equips them to produce, transform and sell traditional and advanced products and materials, thus allowing them to contribute to the development of a chemical industry that is both "green" and sustainable. Possible career opportunities include:

- Process and product design and development
- Scientific research consultancy
- Energy development
- Chemical manufacturing

- Chemical information management
- Pharmaceutical, food and environmental services

ENTRY REQUIREMENTS AND ADMISSION

- EU citizens must take a written admission test in Italy that evaluates their knowledge of logic and mathematics.
- Non-EU citizens must take either an oral admission test via Skype or a written admission test in Italy that evaluates their knowledge of logic and mathematics; for more information, write to welcome@unive.it.
- A **certified B2-level knowledge of Italian and a certified B1-level knowledge of English** are required.

TECHNOLOGIES FOR THE CONSERVATION AND THE RESTORATION

Language of instruction: 

Do you want to become a tech expert for the conservation and restoration of cultural heritage? This programme prepares you for this path by teaching you how to carry out technical and scientific investigations in order to understand what causes the deterioration of artistic, architectural and archaeological artefacts, identify the appropriate restoration methodologies and draft conservation plans. During the first year, you acquire core competencies in chemistry, physics, mathematics and the history of art; in the second year, you participate in analytical and physical chemistry labs to master dexterity and gain hands-on experience and participate in restoration workshops, which is pursued in the third year. Upon graduation, you will have an in-depth knowledge of the materials used in art and architecture, the impact that the environment and context has on artefacts, and you will know how to apply investigation methodologies to analyse and understand materials and evaluate their state of conservation.

CAREER OPPORTUNITIES

Graduates can find employment as experts in the diagnostics and conservation of cultural heritage at institutions specialising in cultural heritage management and conservation, as well as local agencies, companies and organisations operating in these fields. Career opportunities can be found in the following contexts:

- Museums and galleries
- Libraries and archives
- Art conservation and restoration
- Arts administration
- Heritage management

ENTRY REQUIREMENTS AND ADMISSION

- A **certified B2-level knowledge of Italian and a certified B1-level knowledge of English** are required.

ADMISSION TO MASTER'S DEGREE PROGRAMMES

ENTRANCE QUALIFICATIONS

In order to enrol in a master's degree programme, you must have successfully completed an undergraduate degree resulting from at least three years of study. If you obtained your degree outside Italy – whether you are Italian, an EU citizen or a non-EU citizen – you must request an online evaluation of your credentials in order to confirm that you are eligible for admission to your chosen programme of study.

LANGUAGE REQUIREMENTS

Most master's programmes require you to have a certified minimum B2-level of knowledge (as defined by the Common European Framework of Reference for Languages, or CEFR) of your programme's language of instruction if you are not a native speaker, and Italian-taught programmes generally also require a certified minimum B2-level knowledge of English. To prove your level of Italian, non-EU students residing outside Italy must either obtain one of the Italian-language certificates recognised by the Italian Ministry of Education, Universities and Research (MIUR) that indicates a B2 level or demonstrate this knowledge by taking an Italian language test offered by the university before the beginning of the academic year. You can find more information about language requirements on the specific web page of the programme that interests you.

ADMISSION

In order to ensure that you are prepared for graduate studies, a Teaching Committee must assess your educational background and personal experience by evaluating your undergraduate transcript of records and a complete curriculum vitae. To provide these documents, you simply upload them to Ca' Foscari's online application platform at apply.unive.it. If the Teaching Committee's assessment is positive, applicants to programmes without an admission cap can proceed directly with the enrolment process while those applying to a programme with limited enrolment must take part in a pre-enrolment selection process by taking an admission test:

| | Test type for limited enrolment programmes |
|--|---|
| EU citizen | Written test in Italy |
| Non-EU citizen residing in Italy | Written test in Italy |
| Non-EU citizen residing in the EU | Written test in Italy or oral test via Skype* |
| Non-EU citizen residing outside the EU | Oral test via Skype |

* Depending on visa type

The admission tests yield a ranked list of eligible applicants for each programme. For further details on the specific entrance requirements of the degree programme that interests you, please visit the programme's web page.

ENRICH YOUR DEGREE

ACTIVE LEARNING CENTRE

Ca' Foscari's Active Learning Centre adopts an innovative "learning by doing" approach designed to get master's degree students actively involved in the production of knowledge. It replaces classroom-based lessons with interactive, experience-oriented, interdisciplinary teaching to promote innovation by tackling real cases in an open, creative context that is both responsive and trust-inspiring. With the support of your lecturers, you embark upon a process of discovery that will make you more self-aware and help you acquire the cross-disciplinary competencies that are so important in today's workplace. You can participate in the Active Learning Centre's activities regardless of the master's degree programme in which you enrol.

Some of the centre's offerings include:

- Active Learning Lab
- Business Management and Criminal Liability for Administrators and Executives
- CFA Fund Management Challenge
- CFA Investment Research Challenge
- Emotional Skills and Individual Development
- Forensic Accounting and Support in Controversy
- Methodologies, Digital Resources and Accounting Tools for Philological Studies
- Urban Innovation Bootcamp
- Workshop on Econometrics
- Workshop on Finance
- Workshop on International Relations and Organizations

ACCOUNTING AND FINANCE

Language of instruction: 

Would you like to dive deeper into studying economics and business, concentrating on administrative and financial management of companies of all sizes and diverse business sectors? This master's degree programme prepares you to specialise in these fields, acquiring useful skills to work as an administrative or financial manager, controller, internal auditor, and in risk management. An in-depth study of the legal field also guarantees the necessary skills for the management of extraordinary finance operations and the exercise of professional services. You can put these skills to the test thanks to agreements with the Ordine dei Commercialisti ed Esperti Contabili di Venezia (Order of Chartered Accountants and Accounting Experts) and the Ordine dei Consulenti del Lavoro di Vicenza (Order of Labour Consultants). You can start your professional training during your second year and will be exempt from the first session of the State Exams. This master's degree programme creates experts in accounting data, planning management control systems, organising financial strategies and auditing business risks. Depending on the curriculum you choose, different aspects relating to the profession or internal business management are investigated.

CAREER OPPORTUNITIES

This programme offers an effective grounding for operating within companies and local authorities, holding positions related to corporate accounting and finance including management control. Possible career opportunities include:

- Manager

- Finance and business consultant
- Corporate finance specialist
- Accountant
- Tax professional

ENTRY REQUIREMENTS AND ADMISSION

- All candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- EU citizens must take a written admission test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to their chosen curriculum.
- Non-EU citizens must take either an oral admission test via Skype or a written admission test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to their chosen curriculum; for more information, write to [welcome@unive.it](mailto:welcom@unive.it).
- A certified B2-level knowledge of both Italian and English is required.

ANCIENT CIVILIZATIONS: LITERATURES, HISTORY AND ARCHAEOLOGY

Language of instruction: 

This master's degree programme creates experts in philology, ancient literatures, ancient history and archaeology. Depending on the curriculum you choose, you acquire specialised skills and methods in archaeology, ancient art and material culture history, languages and literatures of ancient Greek and Latin civilisations or ancient history (including Greek, Roman and ancient East history). Your academic activities benefit from Digital Humanities' state-of-the-art technologies and methodologies, allowing you to access texts and archives online and to use specifically designed analytical software. You can further explore your field of interest through excavation experiences, internships in epigraphy, digital humanities workshops and museum internships. Upon graduation, you will be able to assume a position of responsibility in institutions such as museums, local administration, archives, publishing houses, or obtain teaching qualifications for middle and secondary schools.

CURRICULA

- Ancient Philology, Literatures and History 
- Archaeology 

CAREER OPPORTUNITIES

Depending on their chosen curriculum, graduates are prepared for managerial positions at such institutions as archaeological superintendence offices, museums, offices in charge of cataloguing, documentation and restoration, and excavation associations or cooperatives. Potential career opportunities include:

- Public administration manager
- Archeologist
- Historian

- Art expert
- Linguist or philologist
- Publishing professional
- Museum curator

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A **certified B2-level knowledge of both Italian and English** is required.

BUSINESS ADMINISTRATION

Language of instruction: 

Do you want to work in an SME (small or medium-sized enterprise) or as a freelance consultant by focusing your studies on corporate and sustainability issues? This master's degree programme provides you with a wide range of skills as well as economic and managerial knowledge. By choosing this master's degree, you can complete an internship or gain practical business experience through active training projects. You also will be eligible to apply for a double degree with the Universität Hohenheim in Stuttgart, Germany, or the Ecole Supérieure de Commerce de Paris–Europe (if you completed the bachelor's degree in Economics and Business at Ca' Foscari).

CAREER OPPORTUNITIES

Graduates are equipped to take on managerial and development responsibilities in a host of different contexts. Career opportunities can be found in the following fields:

- Public administration management and supervision
- Human resources management
- Workplace organisation
- Business economics consultancy
- International projects/operations management
- New market development
- Area or export management

CONTACT INFORMATION:

Department of Management
San Giobbe, Cannaregio 873, Venice

ENTRY REQUIREMENTS AND ADMISSION

- All candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- EU citizens must take a written admission test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to their chosen curriculum.
- Non-EU citizens must take either an oral admission test via Skype or a written admission test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to their chosen curriculum; for more information, please write to welcom@unive.it.
- A **certified B2-level knowledge of both Italian and English** is required.

DOUBLE/JOINT DEGREES

Double Degree with Ecole Supérieure de Commerce de Paris–Europe (France): at the end of their studies, students obtain a *Laurea Magistrale in Economia e gestione delle aziende* from Ca' Foscari and a Master's Degree in Management from ESCP-Europe. Ca' Foscari issues a yearly call for applications for this double degree programme.

Double Degree with Universität Hohenheim (Germany): At the end of their study programme students can be awarded with a double degree: Master's degree in Business Administration of Ca' Foscari University of Venice and Master of Science in International Business and Economics (M. Sc.) or Master of Science in Management (M. Sc.) from Universität Hohenheim. Ca' Foscari issues a yearly call for applications for this double degree programme.

COMPARATIVE INTERNATIONAL RELATIONS

Language of instruction:  or 

This master's degree is one of a kind in Italy for International Relations associated with languages and foreign cultures, law and international economics. You will be immersed in linguistic and cultural studies on Europe, Asia and the Atlantic world, typical of the Ca' Foscari tradition. The curriculum offers solid linguistic training, legal and economics courses, as well as in-depth comparative studies on the political, cultural, geographic and sociological fields through study programmes on specific geopolitical areas. The skills you gain will allow you to assume positions and responsibilities in international offices and organisations, private companies that operate in the international market, public administration and territorial entities, national and international organisations in international corporations, in consular offices, institutions, entities, agencies and foundations.

CONTACT INFORMATION:

www.unive.it/international-relations

CURRICULA

- Europe–Asian Orient 
- Inter Mediterranean 
- Eastern Europe 
- International and Cross-Cultural Relations 
- Politics for economic development 
- Transatlantic 

CAREER OPPORTUNITIES

Graduates will be able to find employment with businesses and organizations operating in international markets, with local government and regional bodies, and with national and international institutes, agencies, foundations and study centres. Career opportunities can be found in the following fields, among others:

- Image management
- Public relations consultancy
- Journalism and broadcasting
- International marketing
- Public service

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- For the International and Cross-Cultural Relations curriculum, a **certified B2-level knowledge of English** is required; for the other curricula, a **certified B2-level knowledge of both Italian and English** is required.

COMPUTER SCIENCE

Language of instruction: 

This English-taught master's degree programme offers you a broad spectrum of knowledge and skills on methods, tools and enabling technologies to manage and analyse large amounts of data through statistical techniques, machine learning and design reliable software with focus on security, correctness and performance. The contents of the two specialisations intercept rapidly growing industrial sectors in production and services, both on Italian and international levels; in particular, Big Data & Analytics, Cybersecurity, Cloud, and IoT. After completing the programme, you will be proficient in software design, data management and analysis, informatics systems and computer networks, especially with regards to security both in Italy and abroad. Several Italian professional associations have celebrated the programme's excellence.

CURRICULA

- Data Management and Analytics 
- Software Dependability and Cyber Security 

CAREER OPPORTUNITIES

Graduates have the skills required for working in the fields of software construction and data analysis and can seek employment with manufacturing companies dealing with information systems and processor networks and with companies, local authorities and laboratories that employ complex information systems and analysis methods at both the national and international levels. Possible career opportunities include:

- Software analyst and developer
- Information security specialist
- System analysis
- System administrator

- Web application developer and analyst
- Database developer and analyst
- Information and network specialist

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A **certified B2-level knowledge of English** is required.

CONSERVATION SCIENCE AND TECHNOLOGY FOR CULTURAL HERITAGE

Language of instruction: 

This master's degree programme is taught entirely in English and trains experts in cultural heritage conservation with a strong interdisciplinary approach (chemistry, physics, biology, computer science, geology) and emphasises hands-on experience with innovative conservation technologies. At the end of the programme, you will possess the qualifications to become a conservation scientist, a technical and scientific expert in the conservation of cultural heritage. You will be able to design and use new restoration and conservation technologies, develop and design prevention and maintenance projects and carry out investigations of artefacts in a conservational context.

CAREER OPPORTUNITIES

Graduates can find employment with public and private organizations as well as businesses and laboratories specializing in restoration and conservation. They can also carry on with their studies at the doctoral level in chemical science. Possible career opportunities include:

- Museum technician
- Restorer
- Cultural consultant
- Restoration technology development

ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A **certified B2-level knowledge of English** is required.

CROSSING THE MEDITERRANEAN: TOWARDS INVESTMENT AND INTEGRATION (MIM)

Languages of instruction:  + 

Offered jointly with the Université Paul-Valéry Montpellier 3 (UPVM) and in collaboration with the Université de Strasbourg, Sousse and Meknès, this master's degree programme gives you an in-depth knowledge of the countries of the south shore of the Mediterranean and their interaction with Europe. In the two years of study, which takes place between Italy, France, Tunisia or Morocco, you will gain interdisciplinary skills related to studies on migration in the Mediterranean and intercultural mediation, historical and social skills, qualitative and quantitative analysis tools, field research techniques, analysis of collected data and European planning skills. An emphasis is placed on developing your linguistic skills, in particular Hebrew, Arabic and Moroccan. The course includes an internship, allowing you to acquire work experience in the field, or to launch

independent research. The programme is taught in English and French. Upon completing your studies, a double diploma is awarded from both Ca' Foscari and UPVM. With the skills you obtain in this plurilingual and multicultural context, you can establish yourself in diverse professional fields, from sustainable planning to Euro-Mediterranean cooperation. You can also work in the organisation and promotion of cultural events, social and educational activities, or the development of sustainable tourism. In each of these fields, MIM graduates can rely on excellent training and a deep understanding of the role and impact of planning in a geopolitical area that is as rich and delicate as the Mediterranean.

CURRICULA

There are no curricula. The study path comprises three modules organized at the three partner universities involved (UAB, Ca' Foscari, UPVM), a fourth module organized either at a university in Maghreb (Sousse/Meknès) or at the University of Strasbourg and a three-month internship.

CAREER OPPORTUNITIES

Graduates are trained to be communication specialists (press, television, cinema, social networks, editorial consultancy), transcultural intermediation experts working for cultural associations and organisations, socio-political experts working for think-tanks tackling Mediterranean issues. Career opportunities can therefore be found in the following contexts:

- Design and promotion of sustainable development projects

- Euro-Mediterranean cooperation
- Social, cultural, economic and tourism consultancy
- Promotion of cultural exchange and cooperation

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A certified B2-level knowledge of English and a certified B1-level knowledge of French are required.

For further information on the application process, please consult the programme web page at www.mastermimplus.eu.

CULTURAL ANTHROPOLOGY, ETHNOLOGY, ANTHROPOLOGICAL LINGUISTICS

Language of instruction: 

This master's degree programme, offered jointly with the University of Padua, explores the new challenges linked to phenomena such as migration, delocalisation, postcolonial and neocolonial contexts, and the cultural impact of diversity. During the programme, you acquire skills that are becoming increasingly relevant in our multi-ethnic society undergoing urbanisation, facing increasing migration, impoverishment and the resulting defence and land claims movements. Thanks to the skills and experience you gain, you will be capable of assuming positions of responsibility in public institutions or international organisations, NGOs, museums, libraries, or archives. You will have the potential to collaborate with institutions offering social, education, health services in planning and analysing strategies, and international cooperation and development, particularly in regards to migration and intercultural communication.

CAREER OPPORTUNITIES

Graduates may find employment with governmental agencies, international organisations and NGOs and other institutions involved in: the enhancement of cultural heritage; social, educational, health care and school services; or regional planning, co-operation and development, with a special focus on immigration issues. Possible career opportunities include:

- Anthropologist
- Linguist or philologist
- Museum and cultural event curator
- Journalist

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A **certified B2-level knowledge of both Italian and English** is required.

ECONOMICS AND FINANCE

Language of instruction:  or 

Would you like to become an economist, work in institutions supporting market regulators, become a risk manager or specialise in economic-financial consultancy? This course offers three curricula to sharpen your economic and financial knowledge: a quantitative economics curriculum, taught entirely in English, that allows you to study

abroad with the Erasmus Mundus program; or a curriculum (one in Italian and one in English) that focuses on the finance sector to prepare you to launch a career in financial markets, in the main areas of banking, finance and insurance management (for example, loans, finance, treasuries, securities, organisation, planning, and internal controls) and in the management of financial investments. Thanks to the economic and financial interpretative tools the programme provides, you will be capable of assuming a position of responsibility both in private companies and in Italian or international public organisations.

CURRICULA

- Economics – QEM 
- Economics and Finance 
- Finance 

CAREER OPPORTUNITIES

Graduates will acquire the necessary knowledge to find employment at financial institutions and to operate as professional managers, analysts, consultants and brokers. Possible career opportunities include:

- Economic systems specialist
- Business economics specialist
- Corporate Finance analyst
- Market regulation specialist
- International business and finance consultant
- Banking
- Insurance expert
- Business analyst
- Financial analyst

ECONOMICS AND MANAGEMENT OF ARTS AND CULTURAL ACTIVITIES

Language of instruction: 

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- For the Economics (QEM) Curriculum and Finance Curriculum, a **certified B2-level knowledge of English** is required; for the Economics and Finance curriculum, a **certified B2-level knowledge of Italian and a certified B2-level knowledge of English** are required.

DOUBLE/JOINT DEGREE

Double Degree in Economics, Econometrics and Finance (MEEF) with Aix-Marseille University (France): At the end of their studies, students obtain a *Laurea Magistrale in Economia e Finanza* from Ca' Foscari University of Venice and a Master Sciences Economiques (Parcours Économétrie Bancaire et Financière) from Université Aix-Marseille. Ca' Foscari issues a yearly call for applications for this double degree programme.

Double Degree in Master Economie et Ingénierie Financière (MEF) – Université Paris-Dauphine (France)

Joint Degree in Models and Methods in Economics and Management – Erasmus Mundus (QEM) in collaboration with Université Pantheon – Sorbonne – Paris 1 (France); Universität Bielefeld (Germany); Universitat Autònoma – Barcelona (Spain).

Do you want to work in the field of artistic heritage and cultural management? This master's degree program trains you to understand the nature and processes of cultural productions, connect the professional worlds of management and culture, and activate marketing processes. You can apply your knowledge in the field by

taking advantage of internship opportunities that prepare you to enter the work force. The lectures, teaching approach and structure of this programme allow you to make new connections between culture and business in the crucial relationship between creativity and innovation.

CAREER OPPORTUNITIES

Graduates can pursue careers as managers responsible for the planning and organization of cultural activities and events with companies, cultural institutions and government agencies. Possible career opportunities can be found in the following fields:

- Cultural projects management
- Conservation and enhancement of the arts
- Communications
- Arts management
- Economic consulting

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A certified B2-level knowledge of both Italian and English is required.

DOUBLE/JOINT DEGREE

Double-Degree in Economics and Management of Arts and Cultural Activities with Universidad Nacional de San Martín (Argentina): At the end of the course, the chosen students will have obtained a double academic degree: a Master's degree in Economics and Management of Arts and Cultural Activities and *Especialización en gestión cultural y políticas culturales* at the Universidad Nacional de San Martín.

ENVIRONMENTAL SCIENCES

Language of instruction:  or 

The master's degree programme provides you with an elevated qualification and specialisation in the following fields: application of methodology of investigation and the design of recovery operations and environmental rehabilitation; evaluation of environmental resources; regional management and planning and of coastal marine systems; evaluation and management of climate change issues and dynamics of the Earth system, environmental interest technologies and cleaner products and processes. It is structured in three curricula: Global Environmental Change (entirely taught in English), Control and Environmental Rehabilitation and Evaluation and Management of Environmental Systems. The programme includes lab and interdisciplinary experiments in the field, as well as international internship opportunities. Upon graduation, you will have the necessary skills to assume a position as a highly qualified specialist or a consultant in different industries, or work in international environmental protection companies, public organisations, research institutions and universities.

CURRICULA

- Control and Environmental Rehabilitation 
- Global Environmental Change 
- Evaluation and Management of Environmental Systems 

CAREER OPPORTUNITIES

Graduates are highly qualified specialists capable of tackling the prevention, diagnosis and resolution of environmental issues thanks to their multidisciplinary skill set. They are equipped to assume positions of responsibility in project and facilities management. Possible career opportunities include:

- Environmental change expert
- Agriculture and forestry management expert
- Geologist
- Biologist
- Botanist
- Ecologist
- Zoologist

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- For the Global Environmental Change curriculum, a certified B2-level knowledge of English is required; for the other curricula, a certified B2-level knowledge of both Italian and English is required.

DOUBLE/JOINT DEGREE

Joint Master's Degree in Sustainable Development with Karl-Franzens Universität Graz (Austria), Leipzig University (Germany), Utrecht University (Netherlands), Basel University (Switzerland), Hiroshima University (Japan), Stellenbosch University (South Africa) and Teri University (India) are additional partner universities. Ca' Foscari issues a yearly call for applications for this joint degree programme.

EUROPEAN, AMERICAN AND POSTCOLONIAL LANGUAGE AND LITERATURE

Language of instruction:  or 

This master's degree provides you with the skills to advance in the field of languages, literature, and culture in European and American postcolonial countries, and is divided into different curricula: American, French, German, Iberian, Slavic and Balkan Studies. During your programme, you develop an advanced knowledge of the history of literary language and the culture of the studied civilisations and gain a strong competence in one of the languages that you study. Internationality is a distinctive trait of the course, thanks to collaborations with foreign universities that allow you to obtain joint degrees or double diplomas. At the end of your degree, you can pursue further studies or assume positions in the field of Italian and international entrepreneurship in public and private institutions. With the skills you gain, you could also play a role in selecting what is taught in foreign language, civilisation and literature courses for public schools.

LANGUAGES

Albanian, Anglo-American, Czech, English, French, German, Modern Greek, Polish, Portuguese and Brazilian, Romanian, Russian, Serbo-Croatian, Spanish.

CURRICULA

Literatures and Cultures

Concentrations:

- American Studies 
- English Studies 
- French Studies 
- German Studies 
- Iberian Studies 
- Slavic and Balkan Studies 

English and American Literary and Cultural Studies (Joint Degree)

Concentrations:

- Literary Studies
- Cultural Studies (Joint Degree)

Please check the admission procedure on the programme web page.

Estudios Ibéricos e Iberoamericanos (Double Degree)

Please check the admission procedure on the programme web page.

Études Françaises et Francophones (Double Degree)

Please check the admission procedure on the programme web page.

CAREER OPPORTUNITIES

Thanks to the skills and knowledge the programme provides, graduates are prepared to carry on to doctoral degrees or seek employment with both national and international businesses, and public and private institutions and organizations. Career opportunities can be pursued in the following fields:

- Image management and public relations consultancy
- Interpreting
- Translation
- Linguistic/philological research or consultancy
- Archives
- Libraries
- Museum curation

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- Each joint and double degree has its own distinct admissions procedure; for more information, visit the relevant programme web page.
- For the language requirements of each curriculum or double/joint degree programme, please check the relevant programme web page.

DOUBLE/JOINT DEGREES

- Double Degree in "Estudios Ibéricos e Iberoamericanos" with the Universidad Nacional del Litoral (Argentina)
- Double Degree with the Université Sorbonne Nouvelle - Paris 3 (France) or Humboldt-Universität – Berlin (Germany)
- Double degree with the Universidad de Huelva (Spain)
- Double degree with the Universidade Federal do Espírito Santo (Brazil)
- Double degree with the Universidad de Sevilla (Spain)

At the end of their studies, students receive a *Laurea Magistrale in lingue e letteratura europea, americana e postcoloniali* from Ca' Foscari University of Venice and one of the following, depending on the double degree selected: *Licenciatura en Letras* from Universidad Nacional del Litoral; *Master européen en Études Françaises et Francophones* from one of the partner universities; *Máster en Literaturas europea y enseñanza de lenguas (LEEL)* from

the Universidad de Huelva; *Mestrado em Letras (Programa de Pós-Graduação em Letras)* from the Universidade Federal do Espírito Santo; *Máster Universitario en Estudios Hispánicos Superiores* from the Universidad de Sevilla.

European Joint Master's Degree in English and American Studies

with the Otto-Friedrich Universität – Bamberg (Germany); Karl-Franzens Universität – Graz (Austria); Pécsi Tudományegyetem – Pécs (Hungary); Université Paris Diderot – Paris 7 (France). Ca' Foscari issues a yearly call for applications for each of these double and joint degree programmes.

GLOBAL DEVELOPMENT AND ENTREPRENEURSHIP

Language of instruction: 

If you are passionate about the complex mechanisms of the global market or if you have an entrepreneurial spirit, this programme will put you on the right path. Taught entirely in English, it offers you the tools you need to engage with international markets, especially emerging ones, and to understand business growth processes in an international context. In this programme, you have the opportunity to meet with entrepreneurs and directors of Italian and foreign companies. You can also gain international experience by choosing a double degree with l'École Management Strasbourg. The programme provides study grants for entering the work force thanks to the Luciano Iglesias Foundation.

CURRICULA

- Global Markets 
- Entrepreneurship 

CAREER OPPORTUNITIES

Graduates can pursue careers as experts in international markets, foreign sales managers, export managers, managers in charge of finance, control and business accounting, venture capitalists and entrepreneurs. Employment opportunities can be found in the following fields:

- Commercialisation and promotion of goods and services
- Commercialisation of information technology and communication
- Purchasing of goods and services
- Market analysis
- Economic systems analysis

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A **certified B2-level knowledge of English** is required.

DOUBLE/JOINT DEGREE

Double Degree with the Ecole Management Strasbourg (France): Graduates obtain a Master's Degree in International & European Business. Ca' Foscari issues a yearly call for applications for this double degree programme.

CAREER OPPORTUNITIES

The highly multidisciplinary education graduates receive enables them to carry out professional duties and tasks with confidence and autonomy, thereby giving the access to high-profile professional and managerial roles at any public administration institution. Graduates can also find employment with private-sector businesses and organisations dealing with social issues that work in collaboration with public administrative bodies. Career opportunities can be sought in the following contexts:

- Public service agencies
- NGOs
- International organizations
- Economic and financial consulting
- Legal consulting
- Human resources management
- Public administration management

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A **certified B2-level knowledge of Italian and a certified B1-level knowledge of English** are required.

HISTORY AND MANAGEMENT OF ARCHIVAL AND BIBLIOGRAPHIC HERITAGE (INTER-UNIVERSITY PROGRAMME)

Language of instruction: 

This master's degree programme is offered jointly with the University of Padua and trains future archivists and librarians. It provides you with an in-depth academic understanding of the treatment of the various materials conserved in archives, libraries and documentation centres. The programme's educational approach addresses theoretical, practical and methodological issues, and teaches you methods for the dissemination, enhancement and communication of archival and bibliographic information as well as how to use the main software and electronic communication tools employed in the archival and library sciences. The programme provides all of the skills and knowledge you need for positions of responsibility in both public and private archives, libraries, and documentation centres.

CAREER OPPORTUNITIES

Graduates are prepared to take on managerial positions at institutions and organizations involved with the production, management, conservation, enhancement and communication of archival and bibliographical heritage. Career opportunities can be sought in the following fields:

- Museum curation and management
- Library and archive services
- Publishing and journalism
- Government agencies
- Public and private organizations focused on archival and bibliographic heritage
- Research and education

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A **certified B2-level knowledge of both Italian and English** is required.

HISTORY FROM THE MIDDLE AGE TO PRESENT

Language of instruction: 

This programme provides the skills you need to become a historian or a curator in archives, libraries or museums, emphasising the history of cultures and religions as well as anthropology and sociology. Once enrolled, you can also apply for one of the three joint degrees offered in France and Argentina. The programme provides you with a complete knowledge of reading methodologies and equips you to analyse different types of literary, documentary, archival, iconographic and monumental material, and study the survey techniques of studies conducted on primary sources. These skills are key for professional training in the fields of communication, teaching and the dissemination of academic knowledge, and the programme helps to further their development with workshops organised in museums, archives and libraries.

CAREER OPPORTUNITIES

Graduates can employ the knowledge and skills acquired through the programme by seeking employment of a variety of kinds. Possible career paths include:

- Historian
- Museum curator
- Publisher
- Journalist or writer
- Researcher or teacher
- Archive specialist

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A **certified B2-level knowledge of English** is required.

DOUBLE/JOINT DEGREE

Double Degree with the Universidad de Tres de Febrero – Buenos Aires (Argentina): At the end of their studies, students receive a *Laurea Magistrale in Storia dal medioevo all'età contemporanea* from Ca' Foscari University of Venice and a *Maestría en Historia* from the Universidad Nacional de Tres de Febrero.

Double Degree with the Université de Rouen (France): At the end of their studies, students receive a *Laurea Magistrale in Storia dal medioevo all'età contemporanea* from Ca' Foscari University of Venice and a *Master Histoire, spécialité Sciences Historiques* from the Université de Rouen.

Double Degree with the Universidad Nacional del Litoral – Santa Fe (Argentina): At the end of their studies, students receive a *Laurea Magistrale in Storia dal medioevo all'età contemporanea* from Ca' Foscari University of Venice and a *Licenciatura in Historia* from the Universidad Nacional del Litoral.

Ca' Foscari issues a yearly call for applications for each of these double degree programmes.

HISTORY OF ARTS AND CONSERVATION OF THE ARTISTIC HERITAGE

Language of instruction: 

Since the conservation of artistic heritage requires a well-rounded education with in-depth knowledge of artistic phenomena, this programme provides you with a thorough knowledge of the history of art and artistic techniques from the Middle Ages to the modern day while enabling you to choose a specialisation based on your own personal interests. Educational activities, which frequently take the form of seminars, equip you to carry out in-depth analyses of focused aspects of the history of art. The programme also gives you the opportunity to discover and gain experience in important cultural institutions through internships. Thanks to the skills the programme provides, you will be able to assume positions of responsibility in cultural heritage studies, conservation and management contexts, as well as in cataloguing, cultural events and exhibition organisation and the designing of cultural and educational activities.

CURRICULA

- Medieval and Byzantine 
- Modern 
- Contemporary 

CAREER OPPORTUNITIES

Graduates are equipped to assume managerial positions at public and private institutions involved in the study, classification, safeguarding, conservation, enhancement and management of historical artistic heritage. Possible career opportunities include:

- Historian
- Art expert
- Museum curator
- Artistic director

- Scriptwriter

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A **certified B2-level knowledge of both Italian and English** is required.

INTERCULTURAL DEVELOPMENT OF TOURISM SYSTEMS

Language of instruction: 

It is impossible to imagine a better setting than Venice for carrying out interdisciplinary studies dedicated to exploring the increasingly complex demands of the tourism market. This master's degree programme trains you to become an expert in the development and intercultural promotion of tourism systems and markets by building your theoretical and applied knowledge through engaging workshops and internships.

Thanks to the interdisciplinary nature of the course, you will acquire skills allowing you to establish yourself as an expert in the international tourism market.

CAREER OPPORTUNITIES

Graduates can find employment with companies, tourism organizations, local governments, consortia and consulting companies operating in the tourism sector or launch out on their own as tourism entrepreneurs. Possible career opportunities include:

- Tourism consultant
- Destination manager
- Web marketing manager
- Editing for advertising
- Technical text editor
- Image and public relations consultant
- Event organisation consultant
- Local systems developer
- Promotion consultant

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A **certified B2-level knowledge of both Italian and English** is required.

INTERPRETING AND TRANSLATION FOR PUBLISHING AND FOR SPECIAL PURPOSES

Language of instruction: 

ITES is a unique course in Italy that integrates translation skills, interpretation skills and a combination of Chinese to English and Chinese to Italian in the same curriculum, as well as Cantonese. With this programme, you gain techniques and methodologies that are used in professional interpretation and specialised literary translation, as well as learning how to use IT tools for assisted translation. You will tackle the most diverse linguistic-literary and socio-cultural issues with a comparative and intercultural approach, knowledge that is crucial to satisfy the demand for professional mediators in response to the exponential growth of Far Eastern economies. Possessing specialised skills in the field of interpretation and translation increases opportunities for establishing yourself in the work force. Throughout the course, you learn to analyse and translate technical, literary and editorial texts, to translate multimedia texts (websites, audio-visual, localisation etc.) You also learn how to do liaison interpreting, consecutive and chuchotage (whispered) interpreting and company visits as well as to manage complex technical professional projects. In addition to providing a wealth of technical skills, these activities aim to deepen the understanding of intercultural and interlinguistic dynamics in which you will find yourself working in professional and academic contexts.

LANGUAGES

Chinese and Cantonese.

Students will be trained in the processing and analysis of jargon in texts written in Chinese, English and Italian. Any language skills acquired through the use of multimedia resources can be

applied to computer-aided specialist translation and interpreting.

CAREER OPPORTUNITIES

Graduates can seek employment with international companies and organizations or translation agencies in a variety of capacities. Career opportunities can be found in a variety of fields, including:

- Interpreting
- Translation
- Cross-linguistic communication and advertising
- Linguistic or philological consultant
- Technical text editing
- International cultural exchange consultant
- International public relations
- International journalism

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A certified **B2-level knowledge of both Italian and English** is required, and students must have an **excellent knowledge of Chinese**.

ITALIAN PHILOLOGY AND LITERATURE

Language of instruction: 

This master's degree programme offers an in-depth study of linguistics, philology and literature since the Middle Ages, focusing on developing critical knowledge through primary, literary and archival sources. You can choose between two curricula: Medieval and Renaissance Period, and Modern and Contemporary Period, and are eligible for the double degree in *Italienstudien* (Italian Studies) with the Goethe-Universität and study in Venice and in Frankfurt. You gain specialised skills in linguistics and philology, in archival and library sciences, in managing and organising publishing, and cultural activities, and will be able to pursue a career in the fields of production, publishing and conservation of books and journals. After graduation, you can also pursue further postgraduate education.

CURRICULA

- Medieval and Renaissance Period 
- Modern and Contemporary Period 

CAREER OPPORTUNITIES

Graduates are equipped to seek employment in the teaching sector, with Italian and foreign cultural organizations and institutions and in the fields of publishing and communications. Possible career opportunities include:

- Editor for advertising
- Linguist or philologist
- Librarian
- Archive professional
- Journalist or writer

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A certified **B2-level knowledge of both Italian and English** is required.

DOUBLE/JOINT DEGREE

Double Degree with the Goethe-Universität (Germany). Ca' Foscari issues a yearly call for applications for this double degree programme.

LANGUAGES AND CIVILIZATIONS OF ASIA AND MEDITERRANEAN AFRICA

Language of instruction: 

This programme allows students to achieve proficiency in an Asian or North African languages (including micro-languages) taught at Ca' Foscari and to gain an in-depth knowledge of the language's associated literature (or one of their kindred literatures), history and culture in all of their various aspects, including philosophy and religion, society and institutions, archaeology and art.

LANGUAGES

- Chinese (China curriculum)
- Japanese (Japan curriculum)
- Choice language between: Arabic, Hebrew, Hindi, Persian and Turkish (Near and Middle East and Indian Subcontinent curriculum)

CURRICULA

- China 
- Japan 
- Near and Middle East and Indian Subcontinent 

CAREER OPPORTUNITIES

Graduates may assume important roles in publishing and communication sectors, in international, cultural and social co-operation organizations and in Italian institutions abroad, as well as work as professionals in the capacity of area specialists and translators of literary texts. Possible career opportunities include:

- Interpreter
- Translator
- Technical editor
- Image and public relations consultant
- Linguist or philologist
- Museum curator
- Publishing professional

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- For the language requirements of each curriculum, please check the programme web page.

DOUBLE/JOINT DEGREE

[Master's Degree in Teaching Chinese to Speakers of Other Languages Capital Normal University \(Beijing, People's Republic of China\)](#). Ca' Foscari issues a yearly call for applications for this double degree programme.

CAREER OPPORTUNITIES

Graduates can find employment with businesses and financial institutions operating in Asian and North African markets, with national and international public organizations, with volunteers' facilities and institutions operating in co-operation with these and in development sectors. Possible career opportunities include:

- Interpreter
- Translator
- Technical editor
- Linguist or philologist
- Researcher and educator
- Journalist
- Economic systems specialist
- Market regulation specialist
- Economic planning specialist
- Economic and financial consultant

ENTRY REQUIREMENTS AND ADMISSION

- All candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- EU citizens must take a written admission test in Italy that evaluates their general knowledge of economics and history.
- Non-EU citizens must take either an oral admission test via Skype or a written admission test in Italy that evaluates their general knowledge of economics and history; for more information, write to welcome@unive.it.
- For all curricula, a **certified B2-level knowledge of both Italian and English** is required.

MANAGEMENT

Language of instruction: 

Do you want to work in a business or an organisation that deals with global markets every day? Do you want to become an expert in marketing and innovation or in finance and administration to fulfil your business potential in international organisations? This programme offers three distinct curricula in the field of management studies, each focusing on a different area of knowledge and expertise, to help you achieve these goals. The Accounting and Finance Curriculum trains experts in accounting data, planning management control systems, finance strategies and auditing business risk. The International Management Curriculum you with the knowledge and skills required for managing businesses. The third curriculum, entitled Innovation and Marketing, provides students with the tools they need to plan and manage marketing and communications activities, including branding, print and online advertising, and public relations. Once enrolled, you also have the opportunity to apply for a double degree with prestigious foreign university partners such as the Universität Hohenheim in Stuttgart, Germany, and the Ecole Supérieure de Commerce de Paris–Europe.

CURRICULA

- Accounting and Finance 
- International Management 
- Innovation and Marketing 

CAREER OPPORTUNITIES

Depending on the curriculum selected, there is a range of different career paths a graduate can follow. Some of the most popular professions include:

- Corporate finance specialist
- Accountant

- Tax professional
- International projects/operations manager
- New market developer
- Market analyst
- Image and public relations consultant

ENTRY REQUIREMENTS AND ADMISSION

- All candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- EU citizens must take a written admission test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to their chosen curriculum.

- Non-EU citizens must take either an oral admission test via Skype or a written admission test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to their chosen curriculum; for more information, write to welcome@unive.it.
- A **certified B2-level knowledge of English** is required.

DOUBLE/JOINT DEGREES

Double Degree with the Ecole Supérieure de Commerce de Paris–Europe (France): Students enrolled in the Master's degree in Management

can obtain a Double degree: a Master's degree in Management at the University Ca' Foscari Venice and Master in Management from ESCP-Europe.

Double degree with the Universität Hohenheim Stuttgart (Germany):

At the end of their studies, students obtain a *Laurea Magistrale in Economia e gestione delle aziende* from Ca' Foscari and a Master's Degree in Science in International Business and Economics (MSc) from the Universität Hohenheim. Ca' Foscari issues a yearly call for applications for this double degree programme.

CONTACT INFORMATION:

Department of Management

MARKETING AND COMMUNICATION

Language of instruction: 

Do you want to become a manager in the marketing and communication field? If so, this master's degree programme helps you to develop the communication skills you need and provides opportunities for professional development through targeted workshops and internships at marketing and communications firms. In fact, this programme supplements lectures with a particularly long internship period in order to emphasise the importance of the practical aspects of this course. The master's degree programme in Marketing and Communication for business provides you with the tools to plan and control marketing activity on an Italian and international level. You can also apply for a double degree with the École Supérieure de Commerce de Paris-Europe (if you have completed the bachelor's degree in Economics and Business at Ca' Foscari).

CAREER OPPORTUNITIES

Graduates can find employment as product managers, brand managers, category managers, sales and marketing managers of companies specializing in goods and services, account managers in advertising, market research and marketing and communications consultants. Additional career opportunities include:

- International commercialisation of goods and services
- Information technology specialist
- Communication consultant
- Market analyst
- Image and public relations consultant

ENTRY REQUIREMENTS AND ADMISSION

- All candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- EU citizens must take a written admission test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to the field of study.
- Non-EU citizens must take either an oral admission test via Skype or a written admission test in Italy that evaluates both a general knowledge of economics and specific knowledge relevant to the field of study; for more information, write to welcome@unive.it.
- A **certified B2-level knowledge of English** is required.

DOUBLE/JOINT DEGREE

[Double degree with the Ecole Supérieure de Commerce de Paris – Europe \(France\):](#)

At the end of their studies, students receive a *Laurea Magistrale in Marketing e Comunicazione* from Ca' Foscari University of Venice and a Master's Degree in Management from the ESCP. Ca' Foscari issues a yearly call for applications for this double degree programme.

PHILOSOPHICAL SCIENCES

Language of instruction: 

This master's degree programme develops and refines all of the skills you need in order to explore and analyse important philosophical and epistemological issues, especially through discussion and debate. There are two curricula available: the Philosophy curriculum builds your theoretical, ethical, historical and philosophical knowledge and skills, while the Educational Counselling and Training curriculum helps you to discover and explore educational training processes in a social context as well as develop pedagogical tools. Over the course of the programme, you learn how to analyse relevant contemporary matters through the application of philosophical reasoning in order to evaluate the relevant aspects and cultural traditions of the sciences and the arts, and of communication and language. The programme emphasises the pairing of methodological and pedagogical know-how with practical education science skills.

CURRICULA

- Philosophy 
- Educational Counselling and Training 

CONTACT INFORMATION:

Department of Philosophy
and Cultural Heritage
Palazzo Malcanton Marcorà
Dorsoduro 3484/D, Venice
campus.umanistico@unive.it

www.unive.it/degree/fm61

CAREER OPPORTUNITIES

Graduates are equipped to carry on to advanced studies in the fields of philosophical and social analysis and educational counselling. They can also pursue a first-level professional master's programme dealing with philosophy and philosophical counselling or with the science of cognition and educational training. Career opportunities can be found in the following fields:

- Education and research
- Publishing and advertising
- Human resources
- Philosophy
- Journalism
- Law
- Business consultancy
- Libraries and archives

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A certified B2-level knowledge of Italian and a certified B1-level knowledge of English are required.

DOUBLE/JOINT DEGREE

[Double Degree with the Universitat de València \(Spain\):](#) At the end of their studies, students receive a *Laurea Magistrale in Scienze Filosofiche* from Ca' Foscari University of Venice and a *Máster en Pensamiento Filosófico Contemporáneo* from the Universitat de València.

Ca' Foscari issues a yearly call for applications for this double degree programme.

RELIGIOUS STUDIES

Language of instruction: 

CONTACT INFORMATION:

Department of Asian
and North African Studies
Palazzo Vendramin dei Carmini
Dorsoduro 3462, Venice
www.unive.it/degree/lm98

University of Padua, Department of History
Via Vescovado 30, Padua
www.lettere.unipd.it/magistrali/lmsdr

Offered jointly with the University of Padua, this master's degree programme trains you to be a religious studies specialist with a strong understanding of socio-anthropological analysis. Equipping you with the ability to interpret texts, languages, historical events and cultures, it deepens your understanding of the religions of the Mediterranean, the Middle East, India and Eastern Asia. The course of study places special emphasis on the philological-linguistic skills fundamental to the direct reading of texts and allows for the critical study of sources in order to provide you with a thorough understanding of religions.

CAREER OPPORTUNITIES

Graduates can find employment at both public and private institutions as social workers or as experts in inter-religious relations and communications or multi-confessional social contexts. They may also assume positions of responsibility at Italian and international research centres focusing on religion or in religious publishing. Career opportunities can be sought in the following fields:

- Research on religion and theology
- Education
- Specialized publishing
- Journalism
- Public service

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A **certified B2-level knowledge of both Italian and English** is required.

SCIENCE AND TECHNOLOGY OF BIO AND NANOMATERIALS

Language of instruction: 

If you are interested in nanotechnologies, then this master's degree programme provides you with the strong multidisciplinary training in material science, chemistry and biology that will allow to become an expert in the design and synthesis of new bio/nanomaterials. The programme pairs lectures and laboratory classes that teach you how to prepare bio/nanomaterials, exploring their chemical-physical characteristics, properties, methods of preparation and applications. During your studies, you are given the chance to carry out an internship and learn on the job at research laboratories and companies both in Italy and abroad. Thanks to the skills and knowledge you gain from this master's degree, you will be able to establish yourself professionally in the technical sectors of companies that produce, market, transform or develop materials, or further your education with a doctoral degree.

CAREER OPPORTUNITIES

Graduates are prepared to work in all of the technical areas of companies that deal with the manufacturing, processing and development of both structured and functional bio/nanomaterials. Possible career opportunities include:

- Chemist
- Chemical information management specialist
- Industrial and commercial consultant
- Specialist consultancy
- Researcher

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A **certified B2-level knowledge of English** is required.

SUSTAINABLE CHEMISTRY AND TECHNOLOGIES

Language of instruction: 

This master's degree programme trains you to be a professional chemist capable of developing original ideas and designing new processes in both the research and applied/industrial contexts. The programme has a unique approach to the study of sustainable and green chemistry, for it provides you with an in-depth knowledge of the interaction between chemical production and the environment. The course of study is also markedly interdisciplinary and offers many hands-on formative opportunities, thereby preparing you to apply for both technical and academic positions in research and development, quality assurance and production control.

CURRICULA

- Chemistry 
- Industrial Chemistry 
- Environment Sustainable Chemistry and Technologies (Double Degree) 

CAREER OPPORTUNITIES

Graduates are prepared to work as employees or freelance professionals in any of the departments of a modern company or at a research institute, as well as perform managerial tasks in the chemical industry (both basic and "fine") and manufacturing. Possible career opportunities include:

- Chemist
- Chemical information management specialist
- Chemical manufacturing consultant
- Process developer
- Product designer
- Researcher
- Specialist consultant for companies and governmental agencies

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A **certified B2-level knowledge of both Italian and English** is required.

DOUBLE/JOINT DEGREE

Double Degree with the Univerza v Novi Gorici (Slovenia): At the end of their studies, students receive a *Laurea Magistrale in Chimica e Tecnologie Sostenibili* from Ca' Foscari University of Venice and an *Okolje 2. Stopnje - Study program Environment* from the Univerza v Novi Gorici.

Ca' Foscari issues a yearly call for applications for this double degree programme.

WORK, SOCIAL CITIZENSHIP, INTERCULTURALITY

Language of instruction: 

This master's degree programme prepares you for social work, social services and social politics by combining a high-level cultural education with advanced professional training. Over the course of your studies, you develop a strong ability to analyse and interpret social phenomena, especially inequality, social discomfort and processes of exclusion, the social "new rich" and the vulnerable groups that are generated by these contexts, the social rights of citizens and the transformation of welfare, migration and intercultural relations, questions of gender and generalisations, and participation and active citizenship as elements of social innovation. Thanks to a series of focused workshops with professionals, you acquire innovative methodologies related to social initiatives. A 250-hour internship, which you carry

out either in Italy or abroad, is an integral part of the programme. The skills you gain from this master's degree equip you to pursue a career in project planning, research, analysis and social initiatives in organisations and institutions operating in the fields of social work, interculturality, social services, labour policy and social and health services.

CAREER OPPORTUNITIES

Graduates are prepared for employment in the areas of planning, research, analysis and intervention with bodies, administrative entities and institutions operating in the fields of social work and social and health services. They may also work in the processing and implementation of social equity policies, initiatives and measures aimed at fighting conditions of social discrimination and exclusion, and in creating and developing projects for the social inclusion and integration of immigrant populations. Career opportunities can be sought in the following fields:

- Public administration management
- Sociology research
- Social work
- Social programme management
- Healthcare
- Education

ENTRY REQUIREMENTS AND ADMISSION

- Candidates must be assessed to confirm their possession of the minimum curricular and experiential requirements.
- A **certified B2-level knowledge of both Italian and English** is required.

Doctoral programmes

WHAT IS A DOCTORAL PROGRAMME?

The doctoral degree (PhD) is the highest university qualification that a student can obtain. In Europe it generally lasts three years and involves on-campus study under close supervision as well as professional training and e-learning activities. A doctoral degree is awarded to a candidate who has submitted a thesis or dissertation that is the culmination of extensive original research in the candidate's chosen field.

ADMISSION REQUIREMENTS

In order to be a qualified candidate, you must already have a master's degree and a relevant academic background in your chosen field of study. You must also have a certified B2-level knowledge of English (as per the Common European Framework of Reference for Languages, or CEFR). Depending on the doctoral programme that interest you, there may also be additional entry requirements.

HOW TO APPLY

In the spring, Ca' Foscari puts out a call for applications providing a detailed explanation of the application and selection procedures. To be admitted to a doctoral programme, you must participate in a public selection process that entails the evaluation of their academic qualifications as well as an oral and/or written exam. This selection process yields a ranked list of eligible candidates.

SCHOLARSHIPS AND FINANCIAL AID

Approximately 75% of the candidates deemed eligible as a result of the public selection process are offered a doctoral scholarship.

ECONOMICS

ECONOMICS

This doctoral programme offers advanced training in economics and finance, providing you with the necessary tools for conducting original research for your doctoral dissertation on socio-economic systems or financial markets. Various specialisations are offered with a focus on both microeconomic analyses (for example, how economic agents behave, how markets and economic organisations work, how economic policy affects economic outcomes) and macroeconomic analyses (for example, issues regarding economic cycles, unemployment, inflation, trade and forecasts and expectations of financial markets).

www.unive.it/phdeconomics

LAW, MARKET AND PERSON

This doctoral programme aims to provide you with the education and experience to become a legal expert specialised in understanding and interpreting contemporary European law as the result of the interaction between national and international factors and dynamics.

www.unive.it/law-market-person

MANAGEMENT

This doctoral degree offers an international study programme that is designed to train you in different areas of management studies, including: organisational economics and game theory, innovation and entrepreneurship, organisation theory and design, human resource skills and management, marketing, accounting regulation, strategic management, cultural management, behavioural economics, business history, corporate finance and sustainability.

www.unive.it/phdmanagement

SCIENCE AND MANAGEMENT OF CLIMATE CHANGE

This doctoral programme was established in collaboration with the Euro-Mediterranean Centre on Climate Change, a world leader in international climate change research. The programme provides you with a broad yet thorough background in economics and equips you to carry out original and innovative research on themes regarding the dynamics of climate change and the methodologies and techniques used in its evaluation and management in terms of mitigation and adaptation measures and policy.

www.unive.it/phdclimatechange

HUMANITIES

ANCIENT HERITAGE STUDIES

This doctoral programme explores all aspects of antiquity and is designed to develop and facilitate your use of specific methodologies and techniques in the study of monuments and texts through the exploration of a broad range of themes and disciplines associated with the historical and interpretive challenges they pose.

www.unive.it/ancient-heritage

HISTORICAL, GEOGRAPHICAL AND ANTHROPOLOGICAL STUDIES

This programme is designed to prepare you with exceptional research skills for the study of the historical phenomena that have shaped European society from the Middle Ages through to present day.

www.unive.it/historical-geographical-anthropological-studies

HISTORY OF ARTS

This doctoral degree explores the history of art in all of its possible meanings. The programme places an emphasis on the valorisation of artistic-cultural, territorial and environmental heritage.

www.unive.it/history-arts

ITALIAN STUDIES

This doctoral programme provides you with the skills and knowledge required to study Italian texts from all periods as well as works in other languages that were penned in similar historical, geographical and cultural contexts.

www.unive.it/italian-studies

PHILOSOPHY AND SCIENCE EDUCATION

This doctoral programme intertwines traditionally distinct yet culturally convergent avenues of research by combining the study of philosophical reasoning with the exploration of the social, psychological, cognitive and educational sciences.

www.unive.it/philosophy-educational-sciences

LANGUAGES AND LINGUISTICS

ASIAN AND AFRICAN STUDIES 🇮🇹

This doctoral degree provides you with both an advanced knowledge of the field of Asian and African studies and the exceptional methodological and analytical skills that innovative research requires. The programme equips you to comprehend and interpret varied phenomena in the historical, geographical and cultural contexts by focusing principally on primary sources written in a range of Asian languages.

www.unive.it/asian-african-studies

MODERN LANGUAGES, CULTURES AND SOCIETIES AND LINGUISTICS 🇮🇹

This doctorate offers a choice between two curricula: "Modern Languages, Cultures and Societies" and "Linguistics". Both streams integrate the study of languages, language science, literature and culture in a wide range of academic and cultural projects.

www.unive.it/languages-cultures-linguistics

SCIENCES

CHEMISTRY 🇮🇹

This programme provides you with a broad range of expertise that encompasses all of the chemical disciplines as well as some areas of chemical engineering and biology. Research topics range widely, from classical organic synthesis to nanotechnologies, and from green and sustainable chemistry to computational chemistry.

www.unive.it/chemistry

COMPUTER SCIENCE 🇬🇧

This doctoral programme provides you with the formal tools necessary for rigorously developing and implementing research, making you an expert in the methodologies employed in the planning and evaluation of systems and computer systems.

www.unive.it/phdcomputerscience

ENVIRONMENTAL SCIENCES 🇬🇧

Promoting an interdisciplinary approach, this programme equips you to explore and develop solutions to the various global issues we are facing today with respect to the environment, ecology and social development.

www.unive.it/phdenvironmentalsciences

SCIENCE AND MANAGEMENT OF CLIMATE CHANGE 🇬🇧

This doctoral programme is a joint initiative between Ca' Foscari, the Euro-Mediterranean Center on Climate Change and the Istituto Nazionale di Oceanografia e Geofisica Sperimentale. It offers a 4-year fully funded scholarship that involves one year of full-time

coursework as well as worldwide research opportunities and connections to a broad international network of excellent universities and research centres in the field

www.unive.it/phdclimatechange

SCIENCE AND TECHNOLOGY OF BIO AND NANOMATERIALS 🇬🇧

This programme is carried out in partnership with the National Cancer Institute (Centro di Riferimento Oncologico, CRO) in Aviano, Italy. Students will have the opportunity to develop their own research projects by making use of the resources and laboratories of both the CRO and the Department of Environmental Sciences, Informatics and Statistics at Ca' Foscari.

www.unive.it/pag/33115

Professional master's programmes

WHAT IS A PROFESSIONAL MASTER'S PROGRAMME?

In the Italian university system, first-level or second-level professional master's programmes (*Master universitari di primo/secondo livello*) involve at least one year of postgraduate specialisation or executive education and training. A professional master's diploma requires that you acquire 60 ECTS credits.

ADMISSION REQUIREMENTS

An undergraduate degree in a relevant field is required for acceptance into first-level programmes. For second-level programmes, candidates must have acquired a master's degree in a pertinent field.

HOW TO APPLY

Every spring, Ca' Foscari puts out a call for applications that provides all of the information regarding the application and selection procedures.

SCHOLARSHIPS AND FINANCIAL AID

Depending on the selected programme, scholarships and loans are available.

BUSINESS STRATEGIES AND INTERNATIONALISATION

FIRST-LEVEL PROGRAMMES

Aviation Management

This programme offers participants with a range of different educational backgrounds the specific knowledge and competences required to navigate the disciplines, processes, regulations and management practices related to the post-development phases of the aviation sector.

Economics and Languages of Eastern Europe + +

This programme combines linguistic, economic and legal expertise in order to train you to be a professional capable of developing productive commercial and cultural relationships between Italian businesses, Russia and the countries of Eastern Europe.

Global Business Japan +

The aim of this programme is to develop creativity, communication and collaboration skills in order to facilitate involvement in cross-border business and management with Japan.

Global Economics and Social Affairs (GESAM)

This programme is organised in collaboration with the International Labour Organization (ILO) in Geneva and is designed to train you as an expert in the interpretation and government of economic and social phenomena in our increasingly globalised world.

Luxury and Customer Advising

This programme was conceived in collaboration with the Istituto dei Mestieri d'Eccellenza (IME)

LVMH and offers the unique opportunity to specialise in the luxury product sales sector. The course of study enables you to acquire learn alternating theory and practice, and the programme includes an internship in a boutique belonging to one of the IME's partner fashion houses: Bulgari, Céline, Christian Dior, DFS, Fendi, Loro Piana, Louis Vuitton and Sephora.

Sustainable Real Estate

This programme is designed to interpret and provide the best possible responses to recent trends in the Italian real estate sector.

Strategic Social Innovation Management

This master's aims to train strategic social innovation managers who can integrate processes, such as the creation of ideas, planning, assessment and business with financial research components.

SECOND-LEVEL PROGRAMMES

Strategic Studies and International Security +

Jointly developed with the Naval Staff College of Venice, this programme is designed primarily for active-duty officers selected by the Italian Navy, but some spaces are also made available for foreign military personnel.

CULTURAL AND SPORTS MANAGEMENT

FIRST-LEVEL PROGRAMMES

Creative Development and Management of Cultural Activities

This programme proposes an innovative path in the field of cultural activities management by providing strategies for a host of activities, such as managing a museum, enlivening a publishing house, finding funds to finance theatrical performances or producing a television series.

Digital Humanities +

This programme aims to provide training in the digital humanities for humanities and IT graduates. It provides technical and professional skills for using, creating and developing IT tools, software and hardware, from creating and processing databases to scanning, digitising and re-processing documents, and from data mining to 3D renderings and historical GIS techniques.

Fashion Design and Management

This programme is the result of collaboration with the Politecnico Calzaturiero Veneto. It trains fashion industry managers by combining the management studies crucial for the competitiveness of the sector, such as brand

and retail management, with themes that provide participants with specific training in the technologies and processes of the fashion sector.

Fine Arts in Filmmaking

This programme aims to provide students with all of the practical and theoretical tools necessary for making a film, in addition to providing multimedia content for advertising, music and artistic videos. In addition to workshops and theoretical lessons, students will have the opportunity to make a digital film entirely produced during the period of their enrolment.

Food and Wine Culture: Promoting Made in Italy Excellence

This programme offers a multidisciplinary approach to the agri-food business. It provides an understanding of the historical/cultural and production basics, operational tools and innovative techniques, combining history, geography, anthropology, economics, marketing, legislation and sensory analysis.

Sport Business Strategies +

This programme trains managers in commercial, marketing and communication areas such as the sports product businesses, the field of professional sports and sports event organisation and the context of commercial and industrial companies that use sport as a communication medium or vehicle for their brand image.

Tourism Economics and Management +

This programme addresses the promotion of cultural and environmental resources and tourist destinations. It incorporates formal and interactive lectures, contributions from corporate

representatives, project work, team activities and case studies. Courses are taught in both English and Italian.

**Yoga Studies:
Body and Meditation in Asian Traditions** 🇮🇹

This unique and ground-breaking specialist master's programme is the first ever to be dedicated to yoga. It combines an exploration of the most innovative historical and philological research into yoga with cutting-edge knowledge in the medical-scientific and legal-economic fields.

SECOND-LEVEL PROGRAMMES

**Management of Cultural Assets
and Activities** 🇮🇹 + 🇫🇷

Ca' Foscari and ESCP Europe have created this double professional master's degree to train professionals who can launch and manage new businesses relating to culture and the arts, providing them with innovative teaching and a combination of experience and managerial tools.

FINANCE, THE TAX SYSTEM AND CONTRACTS

FIRST-LEVEL PROGRAMMES

**International Business,
Arbitration and Tax Law** 🇮🇹

This programme teaches students about international business and tax law by analysing the economic structure of the main operations and legal issues in this area.

SECOND-LEVEL PROGRAMMES

**International Master
in Economics and Finance** 🇬🇧

The aim of this programme is to train students to acquire a deep and sophisticated knowledge of the economic analysis of markets and financial institutions.

LAND MANAGEMENT, ENVIRONMENT AND SAFETY

FIRST-LEVEL PROGRAMMES

Administration and Management of Wildlife

The aim of this programme is to create a new kind of expert capable of combining a knowledge of biology with legal skills. The traditional university courses and the master's programmes currently available do not offer this kind of specialised training, but a figure of this kind is absolutely necessary for the administration (not just the management) of wildlife and natural habitats.

Corporate and Regional Environmental and Energy Assessment and Management

This programme aims to improve the energy and environmental performance of various kinds of companies operating in a range of sectors as well as their external relations (institutions and various types of stakeholder).

Corporate Sustainable Management

The programme trains experts in corporate sustainability with an environmental focus. It offers an integrated and interdisciplinary approach to environmental issues, preparing participants to tackle these complex issues in business life, promoting environmental sustainability in business and developing new business solutions and sustainable business models.

Environmental and Land Law

This programme provides participants with an introduction to basic notions of constitutional and administrative environmental law and equips them with the tools they need to comprehend and master the associated disciplines.

Science and Techniques of Prevention and Safety

This programme aims to create professionals with advanced technical and scientific knowledge and up-to-date skills and tools in the field of work safety. Graduates are capable of rapidly planning and setting up a reliable and safe organisation in the roles of risk-prevention and protection-services managers.

SECOND-LEVEL PROGRAMMES

Characterisation and Remediation of Contaminated Sites

This programme equips participants with the theoretical and practical competencies required to handle issues related to the characterisation of contaminated sites. It also aims to define remediation objectives by means of risk analysis procedures, to pinpoint and implement the best available technologies and to make reliable forecasts regarding intervention costs and times.

Climate Change Science and Management

The programme provides the scientific competencies necessary to understanding the mechanisms guiding climate and economic change and helps develop the tools for assessing the importance and, most importantly, the costs and benefits of the measures that must be taken in response to this change.

PUBLIC ADMINISTRATION, HEALTH AND SOCIAL SYSTEM

FIRST-LEVEL PROGRAMMES

Immigration: Migratory Phenomena and Social Change

This programme is designed to produce new, high-level professionals with expertise in immigration phenomena and intercultural relations.

International Master on Ageing

This programme provides you with the knowledge you need to understand the ageing process from a medical, economic and socio-cultural viewpoint. This interdisciplinary preparation is necessary to developing an analysis of the so-called "silver economy".

Labour and Social Security Law

This programme aims to train experts in labour law, placing particular emphasis on legal competencies as well as industrial relations, administration and personnel management issues.

SECOND-LEVEL PROGRAMMES

Gender Studies and Social Change

The aim of this course is to offer participants the concepts and tools to understand and analyse the social construction of gender as well as social and institutional trends and practices seen from a global, interdisciplinary perspective.

Health Economics and Management

This programme is designed for officers and executives of public health care and welfare authorities operating in the administrative, accounting and management areas of health care services.

Public Administration

This programme provides the in-depth knowledge necessary for dealing with the changing role of public administration in general and local authorities more specifically. It examines the transformation process from juridical, economic, managerial, sociological and statistical perspectives.

TEACHING STAFF AND PROGRAMME

FIRST-LEVEL PROGRAMMES

Didactics and Promotion of Italian Language and Culture to Foreigners (ITALS) 🇮🇹

This course offers two paths: one for teaching Italian to foreigners (L2 course), and another for teaching Italian abroad (LS course).

Professional Psychomotor Therapist 🇮🇹

This programme is the result of a collaboration between Ca' Foscari University and the Centro Ricerca e Formazione Psicomotoria e Pedagogica (Centre for Psychomotor and Pedagogic Research and Training, CeRFoPP) in Udine. The programme provides professional training in educational and preventive psychomotor therapy at both the beginner and specialist levels.

Translation and interpreting theory and techniques: Italian/Italian Sign Language 🇮🇹

This master's programme is intended for hearing graduates (translation and interpreting) who wish to learn more about the theory and techniques of translation and interpreting from a vocal language (Italian) to a sign language (Italian Sign Language) as well as for communications assistants, employees in the health and welfare sectors, and teachers and interpreters wishing to acquire new skills or refresh existing skills.

Teaching Foreign Languages 🇮🇹

This programme aims to provide a solid grounding in foreign language teaching by exploring recent developments in research and the new professional opportunities emerging in the field of foreign language teaching in all education sectors.

SECOND-LEVEL PROGRAMMES

Advanced Planning for Teaching Italian Language and Culture to Foreigners 🇮🇹

This programme provides an in-depth knowledge of teaching and training methods in addition to equipping students with the organisational and planning skills currently required by the job market, thereby developing their ability to plan and monitor training paths.

Fees and how to apply

FEES AND LIVING EXPENSES

Ca' Foscari's tuition fees are remarkably low. This is a result of both heavy subsidising by the Italian Ministry of Education, Universities and Research, which covers approximately 70% of the actual cost, and Ca' Foscari's belief in the need to make university affordable to all. The most you as an international student will pay for your studies is virtually the same as – or in some cases, less than – an Italian student pays. In addition, Ca' Foscari offers a variety of forms of financial aid, including scholarships, exemption from and reduction of fees, student loans and awards for outstanding theses. For more information, visit www.unive.it/financialaid.

| | Students from Italy and EU countries | Students from non-EU OECD countries | Students from developing countries ³ | Students from all other countries |
|---|--------------------------------------|-------------------------------------|---|-----------------------------------|
| Yearly tuition fees for bachelor's degrees ¹ | € 1,844 | € 1,900 | € 700 | € 1,200 |
| Yearly tuition fees for master's degrees ² | € 2,061 | € 2,100 | € 700 | € 1,200 |

¹ The Digital Management programme is an exception.

² The Crossing the Mediterranean programme is an exception.

³ The list of developing countries is determined by the Italian Ministry of Education, Research and Universities each year and can be downloaded at www.unive.it/fees-developing-countries.

Estimated living costs

| | |
|--------------------|---|
| Accommodation | <p>Historic centre of Venice:</p> <ul style="list-style-type: none"> • Around € 400 per month for a single room, excluding utilities • Around € 250 per month for a shared room, excluding utilities <p>Mainland Venice:</p> <ul style="list-style-type: none"> • Around € 200 per month for a single room, excluding utilities • Around € 125 per month for a shared room, excluding utilities |
| Other living costs | <ul style="list-style-type: none"> • Food: € 50–80 per week • Public transport: <i>vaporetto</i>/bus tickets cost € 1.50 each or € 25 for a month-long pass |

FINANCIAL AID

In order to make the choice of studying at Ca' Foscari more affordable, the university offers high-achieving students the following forms of financial assistance:

- **renewable fee waivers**
- **one-time scholarships of €5,000**

For the 2018/19 academic year, we awarded 100 fee waivers and 90 scholarships. If you choose to apply for one or both options, you will be compared to other applicants and ranked according to various factors, including your overall academic average. Applicants will be evaluated in two periods, one in the autumn semester of 2018 and one in the winter semester of 2019. For more information, and to see the calls for applications once they are posted, visit Ca' Foscari's online application system at apply.unive.it.

Once enrolled, students from low-income families can also request financial aid from the regional government.

HOW TO APPLY

BACHELOR'S AND MASTER'S PROGRAMMES

We have three calls for applications for admission to begin your bachelor's or master's degree in the 2019/20 academic year.

- 1st Call: November 2018
- 2nd Call: December 2018–March 2019
- 3rd Call (for EU nationals only): May–June 2019

For the precise dates of each call, which are determined at the beginning of the academic year, visit apply.unive.it.

STEP 1 – Preliminary online evaluation

If you have carried out your preparatory studies outside of Italy, you must begin the application process by requesting a preliminary online evaluation of your qualifications at apply.unive.it. You need to register an account and then upload high-quality colour scans of the required documents. If your chosen programme of study is taught in English, you must demonstrate your possession of a B2-level knowledge of this language (e.g., IELTS, minimum 5.5; TOEFL IBT, minimum 72). For more information about the application procedure and deadlines, visit www.unive.it/evaluation, and to learn more about language requirements, visit www.unive.it/language-requirements.

STEP 2 – Entry test for limited admission programmes

After you have passed the preliminary evaluation stage, if you are applying to a programme with limited admission, you will be required to pass an entry test. EU students must take a written test in Venice or at one of Ca' Foscari's registered international test centres while non-EU students must take an oral exam via Skype.

DOCTORAL PROGRAMMES

In the spring, Ca' Foscari puts out a call for applications that provides all of the necessary details about the application and selection procedures.

To be admitted to a doctoral programme, candidates must participate in a public selection process that entails the evaluation of their academic qualifications as well as an oral and/or written exam.

For more information about how to apply, please write to phd.office@unive.it.

PROFESSIONAL MASTER'S PROGRAMMES

An undergraduate degree in a relevant field is required for acceptance into first-level programmes. For second-level programmes, candidates must have acquired a master's degree in a pertinent field. Every spring, Ca' Foscari puts out a call for applications that provides all of the information regarding the application and selection procedures. For more information about how to apply, please write to master.challengeschool@unive.it.

Academic calendar

The Italian academic year has two main study semesters. During the summer break in July and August, no classes or exams are held, and the university closes at various moments over the course of the year for national and local holidays.

First semester: September–December
Exams: January

Second semester: February–May
Exams: June

Additional exam session: Late August–early September

BANK HOLIDAYS:

November 1: All Saints' Day

November 21: Madonna della Salute (Festival of St Mary of Health)

December 8: Immaculate Conception

December 24–January 6: Christmas Holidays

Late March–mid April: Easter Holidays

April 25: National Liberation Day

May 1: Labour Day

June 2: Republic Day

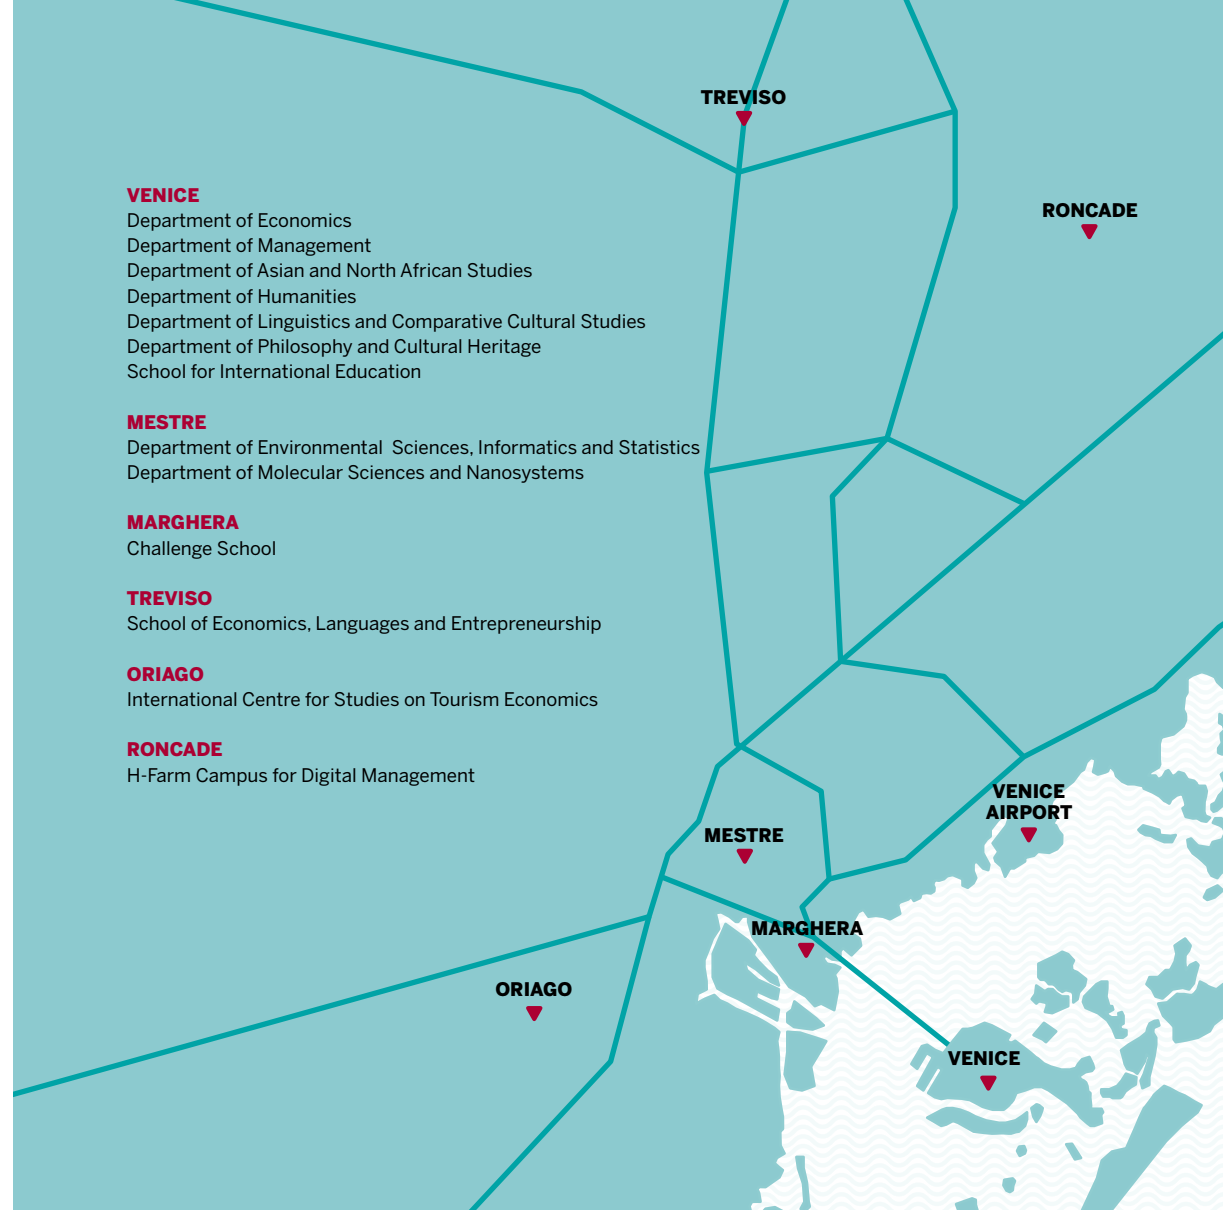

WELCOME DAYS

Shortly before each new semester begins, the Welcome Unit of Ca' Foscari's International Office organises Welcome Days, events devoted to international students with the goal of helping them learn about Ca' Foscari and its services as well as begin to discover Venice. You can find out exactly when your Welcome Day will be held by checking the university website.

First semester: Mid September

Second semester: Late January
